Useful products to help you in your List Building

You will shortly find out that I don't email my buyer lists often. There can't possibly be enough products out there I can recommend you to make money with.

We all are on lists that are affiliate email after affiliate email and like you probably, can't stand it and don't last long before unsubscribing. Because of that, I only share products that I have personally bought or created that have proven to be efficient.

People ask me for recommendations and suggestions on a daily base. These are products and strategies I use every day in my online business.

1. [Subscribers In A Box](#) - When you start an internet marketing business, it's important that you build a list to get your business to follow-up with your audience on auto-pilot. I created "Subscribers In A Box" to help you build your list at practically no cost through Pay-Per-Leads Programs & a click trading technique that allows you to get 5%-15% FREE Traffic returns if done the right way! This eBook is a "Must" for Internet Marketers who want to build a long-term career in the industry... at a really low cost.

2. [NLP Copy Writer Formula](#) - You want to know the "Dirty Secrets" that Internet Marketers Use to make sales through sales letters & e-mail swipes? It's called Neuro-Linguistic Programming. (NLP) If you want to get people to buy your Products or Services "now, today... not later", then this is the only reference you need to write copy. I created this eBook to help you cut corners in this complex science that turns out to be easy once you have the fundamentals.

3. [Solo Seller Formula](#) - You want to make \$1000 Per Day on auto-pilot with your existing traffic? Then you will want to build a Solo Selling Funnel when you build a e-mail list. Why? Because each click you'll be selling through your E-Mail list is worth between \$0.35 – \$0.60 EACH! Think of all the profits you're leaving on the table if you ignore Solo Selling! You gotta SELL SOLO ADS when you're into Internet Marketing to get Maximum Returns from the traffic you already have!

4. [Product Creation Formula](#) - Product Creation is a “Must” for you to brand yourself as a leader so that people can get to **know you, like you & trust you**. There are many ways to create high quality Internet Marketing eBooks in less than 2 hours. I created Product Creation Formula to guide you through the few steps required to make amazing eBooks and pull profits from them.

5. [FaceBook Funnel Formula](#) - Every Internet Marketer Should own Their Facebook group to build relations with their buyers. I created FB Funnel Formula to help you overcome the challenges of getting freebie seekers crowding your group but instead, use a simple method that will drive only buyers to your group.
