Disclaimer

I cannot guarantee you or anyone else any specific amounts of money that will be made with this method, if any. The method is working for me but it does not mean it will work for you or anyone else, especially if you are not willing to put in the time and effort to make it work. With that being said, there is a great potential in this method but it really depends on the hours you are willing to put in, your work ethic and even luck... I'd also like to note that some of the links in this eBook are affiliate links and I do enjoy the commissions but I want to stress that, I'm using all of the products I'm recommending myself and I'd never recommend anything that is not worth much more than the price for it to you!

Hey there and Welcome to Smart Five.rr Profits!

First of all I'd like to congratulate you on a wise decision of getting this course.

I'm excited and you should be as well because what you've invested today will come back to you multiplied in the next few days, if you'll do everything correctly!

Who am I?

My name is Art (that's me and my beautiful daughter below ☺), I live in Portugal and I'm lucky enough to say that today I'm making a full time income online.

I started making money online in 2007 and back then I was doing mainly translation and proofreading jobs. I did ok but after about two years I realized that there's a ceiling to what I'll be ever able to make that way, since I was exchanging my time for money... It wasn't very high and that's why I decided to move on and look for something that I can make more money with and a lot quicker.

I tried many different Internet Marketing business models but nothing seemed to work for me... I was jumping from one thing to another, never really mastering anything and making barely anything at that point!

Fortunately, after some time I managed to put my mind into it and finally did figure things out on my own... I'm treating the money I lost in the process as an investment in myself – I've really learnt a lot, mainly about things that Do NOT Work ☺

Fiverr was one of the sites that I've stumbled upon, I tried it and it worked almost instantly! I'm still making money with it today. I have to say - it is one of the easiest and fastest ways to actually start Making Money Online with Zero Investment!

Since it was launched back in February 2010, it is growing and expanding each year – just recently Fiverr bought their first TV commercial. Currently it is listing well over a million services and it is ranked in the **top 200** websites in the World!

Ok, enough of the introductions - let's jump straight into this Money Making Method!

What's the story?

Fiverr was one of the sites I was experimenting with. I opened more than a dozen accounts, selling different gigs and trying to see what works and what doesn't.

Of course Fiverr initially pays you (only) **\$4 per sale** so the key is not to spend much time delivering the gigs, right?

The problem is that you need to provide value to the buyer and nowadays many of the Fiverr sellers (that you'll be competing with!) are willing to put in a lot of time and effort into their Fiverr Gigs, especially the ones from countries where a few dollars can really make a difference!

What did I discover?

There are certain types of gigs that are in constant need! If you can see that a particular gig is being sold by many people and they sell hundreds or even thousands then that is most definitely a good path to follow.

The best thing about Fiverr is that if you'll set it up right, it takes only **2-3 minutes** to deliver some gigs!

This means you can make an easy **\$80+ an hour** doing this, while being at home and working whenever you feel like 😊

Not only this – because there is such a High Demand for these Gigs, the buyers are coming back over and over again for more!

What we will be doing?

The answer is – **VIDEO INTROS!** Yes, that's right 😊

But Art, I have NO idea of how to work with video, I don't have any experience or special software to do it...

Don't worry, you won't need any of the above!

I'll show you exactly how to set everything up and how you should be delivering your Gigs to maximize the profits and minimize the time spent! We'll go into more detail further into the method...

For now let me just tell you that you can create **Free Video Intros** on FlixPress.com. When you'll land on their site, just go to 'Automated Templates' and then click on 'Free Templates' on the bottom left in the category section. You can pick from 9 different templates and each one can be used for a different Gig.

The screenshot shows the FlixPress.com website interface. At the top, there's a navigation bar with a search icon and the URL www.flixpress.com/AutomatedTemplates.aspx?catid=9. Below the navigation bar is a red button that says "Log-In To Add More Credit".

The main content area is divided into two columns. The left column is titled "Template Categories" and contains a list of categories: View All, Animated Promo, Video PhotoShow, Professional Intro, FlixPress Pro, Ads, Pranks/Gags, Special Occasions, Product Promotion, and Free Templates. A red arrow points to the "Free Templates" category.

The right column displays a grid of video intro templates. Each template is shown as a thumbnail with a title, a preview image, and a caption indicating its ID and price (all are free). The templates shown are:

- Music Intro (ID:42 Price: free)
- Cinema Intro (ID:31 Price: free)
- Teams Vs Team (ID:23 Price: free)
- Robotic X-form (ID:20 Price: free)
- Box Shuffle (ID:13 Price: free)
- Chain Reaction (ID:10 Price: free)
- Icy Spin (ID:9 Price: free)
- World Intro (ID:2 Price: free)
- Lots of Text (ID:1 Price: free)

At the bottom left, there is a section titled "My Favorites" which states: "You have no favorite templates. Open any template and click the 'Add to Favorites' button to add it to your favorites list."

Let's start...

Account Creation

The best way to break into successful selling on Fiverr is to create an account that will be focused on one certain type of gigs.

Many people just sign in to Fiverr with Facebook account, create random gigs in different categories and hope for the best... We will do it the right way!

So we will have to create a new Fiverr account and name it accordingly to what we'll be doing.

Try to look for names like 'yourname_videos', 'videos_with_yourname' or something similar.

Don't get too specific here because you can use the same account to do other video and/or marketing Gigs!

Naming your account this way will actually help you to rank better in the Fiverr search results!

Also, make sure that you mention video and video intros in your Bio (this will also help you to rank you better) and make it attractive by adding a nice profile photo (photos of girls work very well here).

In the description make your future buyers will feel that you're an expert in the field.

Gig Creation

The two main categories we will be creating Gigs in are 'Video & Animation - Intros' and 'Video & Animation - Animation & 3D'. You can also create Gigs in 'Video & Animation - Other' and 'Business - Branding Services' for more exposure by basically creating the same Gig but wording it differently and using a different image.

The first thing that people will notice while browsing Fiverr is the image you'll choose for your gig so it really needs to be something that stands out and is eye catching!

I typically go with a photo of a cute girl, simply because it converts very well but since we'll be doing video intros we will do it a bit differently...

You'll go to [FlixPress.com](https://www.flixfpress.com) and pick one of the templates – that will be the one you'll be creating the Gig for.

You'll create a sample video and put in the text 'Only on Fiverr' or 'Your Text Here' (or something similar) just to show to people that they can put in whatever they want.

Once the video is ready you'll take a screenshot of an attractive looking part (just press *Prt Sc* on your keyboard and paste the image in *MS Paint*).

When you'll be setting the Gig up, you'll upload both the image and the video – that's it!

If you are creating many versions of the same Gig (and you should) it is **very important** to word both the title of the Gig and the description differently (plus use a different image) from the Gigs you already have created. If you

won't, Fiverr will remove them and there is a chance they will only do so after some time (just when they'll notice it) and you'll lose all your Positive Feedback from buyers which is Essential for achieving success on Fiverr!

When creating a new gig make sure to add the keywords to the title, throughout the description and also in the tags.

Also add the word 'Fiverr' a couple of times in the description of the Gig (by writing something like 'If you are looking for someone to create an amazing intro video, here on Fiverr seek no more!' etc). Again, by doing this, your gig will be ranked higher in the searches.

When it comes to delivery time, I suggest this: Always deliver in **24h** – it takes 2-3 minutes to create the intro video and by delivering fast you'll get a competitive advantage over anyone else that is selling a similar Gig.

If your account is brand new than your focus should be to get ten 5 Star feedbacks from your buyers as soon as possible.

When your account will be 30 days old, it will automatically be promoted to '*Level 1 Seller*'!

As a '**Level 1 Seller**' you'll be able to add 'Gig Extras' to your gigs and that's where you start making much more profit (up to **\$85 per gig!**).

Level One Sellers

Getting Serious

You've been active on the site for 30 days and completed at least 10 orders while maintaining excellent ratings and a great track record. You'll automatically be promoted to Level One. At this Level, you'll gain additional features making it easier for you to offer more advanced services and generate higher income.

 ExtraFast

2X Gig Extras (\$5, \$10, \$20)

Gig Multiples (max. 4)

So once you are a 'Level 1 Seller' you can add more options for your buyers that they will pay extra for.

Some of the video intros can be created in 5 different colors and you can easily charge an extra \$10 to give your buyer 5 different versions.

You can also give your buyer different versions of the video for an extra \$5 or give them a HD version for an extra \$5-\$10.

Your next goal is to become a '**Level 2 Seller**', which will allow you to charge even more for Gigs!

Level Two Sellers

The Pro League

You made over 50 orders in the past two months while maintaining excellent ratings and a solid track record. You'll automatically be promoted to Level Two, unlocking advanced sales tools to further expand your services and increase your sales. You'll also receive priority support.

 ExtraFast

3X Gig Extras (\$5, \$10, \$20, \$40)

Gig Multiples (max. 8)

 Priority Support

More 'Gig Extras' and even more money that you'll make per gig – up to **\$325 per Gig!!!**

Using the Free Templates is one thing but if you're going to take advantage of the paid ones as well, you could easily charge up to \$100 per intro with the more advanced templates.

In the message to the buyer simply ask them to send you the text and/or images they want in their video intro, so you can copy-paste it in the template.

To take this to the next level you can create multiple Fiverr accounts but remember that each one will have to be connected to a different PayPal account – if not Fiverr will freeze your accounts!

Just to make it easier for you to start I'm including a **sample headline, description and tags!**

Please DO NOT just copy and paste these! Be a bit creative and make yours different and unique – that's how you'll make all the difference in your Fiverr business.

Sample headline:

"I will create an Amazing Video Intro for \$5"

Sample description:

If you are here on Fiverr because you're looking for someone to create an Amazing Video Intro or a 3d Logo

Intro to use to promote your business, then you are in the right place...

I will create an Amazing Video Intro which you'll be able to use anywhere you want and need and it will surely bring you more sales = more money!

To ensure that you're getting the best version of your video intro I'll also give you unlimited revisions.

I'll make sure that you'll be happy with my delivery and make the most out of your Fiverr.

If you have any questions do not hesitate to contact me!

Delivery & Promotion

Now when you'll be delivering the gig there are a few essential things to do that will **skyrocket** your sales:

- Always give a **Free Gift** to the buyer! Make them feel like you are really over delivering! Some people offer a second Gig for Free, a Gig Extra for free but I like to do something different – give them a Free eBook! You can go to [Master-Resale-Rights](#) or [Plr-Private-Label-Rights](#) and buy a few of these for \$1-\$2 apiece. Why a few? Because if a buyer orders more than one Gig you want to give him a different eBook each time! The eBook can be about anything but it would be nice if they could actually use it – your buyer is a busy person who is looking to grow their business – give them a book about Social Media, SEO, getting traffic or anything else that could be useful to them ☺
HOW TO MAKE EVEN MORE MONEY? If you are buying a PLR eBook you can legally put your name on it and edit the inside of the book. Add a few relevant affiliate links to products that they may like and if they'll buy anything you'll make money (100% Passive Income!). You can find many different products to promote on [ClickBank](#), [JVZoo](#) and [Warrior+](#) but I'm covering it in greater detail below...
- What I didn't mention before is that you also should create a gig saying '**I will gratefully accept a tip for \$5**'. No one will buy it on its own but the magic happens when you are delivering your gigs. After

explaining to your buyer whatever you need when delivering, say something like 'If you feel I did a great job feel free to give me a tip – I'd really appreciate it' and give them the link to the tip Gig. Many people will do nothing but the ones that will decide to leave you a tip will increase your income with no extra effort on your part!

- The most crucial part of the gig selling process is asking for **Positive Feedback!** You want to avoid negative feedback like fire so drop a line like 'If for whatever reason you're not satisfied with my delivery, please let me know and I'll fix it for you ASAP!'. You also want the buyer to leave a 5 Star feedback but if you'll simply ask, only around 50% of people will actually listen to you. That is why we will bribe them! Add a line saying 'I'd really appreciate if you'd leave me a 5 Stars review - if you will I'll send you another Free Gift!'. Of course if they do you simply send them another one of the eBooks you've bought to give away with your gigs 😊 If anyone will leave you 3 stars or less just give them a refund (the feedback will be automatically removed then) – this will make you more money in the long run as people are more likely to buy from someone with a 100% Positive Feedback.
- If you did everything right you should be getting new orders from the organic Fiverr searches but you can also **promote your gigs outside of Fiverr**. There is no point in investing any money in it but you can definitely take advantage of the free tools – Facebook (focus on fb groups – there are even

special Fiverr groups created especially for Fiverr users, where people are both looking for gigs and promoting themselves), Twitter (tweet the urls to the Fiverr gigs you want to promote with a short description), LinkedIn (both status updates and groups) and Forum Signatures (this is a big one, especially if you are active on different forums!)

Make it an Online Business!

Add your Fiverr Buyers to your Email List

You've probably heard a Million times that 'The Money is in the List', right? The truth of the matter is that you can create a very well working Fiverr business doing only what you've learnt up until this point or... you can take it to the Next Level and make even more money on Autopilot!

How? There is a way to add each and every person that bought a Fiverr gig from you to your email list! This way you will not only have their contact forever (or until they unsubscribe) but you can also automate the process with an Auto-Responder email follow up sequence!

This Tip alone is worth much more than you paid for this course – everyone knows how valuable a 'Buyers List' is! Someone that already bought from you once will be very keen to buy whatever you're selling or recommending again and again!

To make this technique work you'll need to get a software program but trust me, the return on investment is Huge and potentially unlimited – this is how you will grow a **Real**

Online Business instead of just providing services and exchanging your time for money.

What you'll need is an Auto-Responder – I Highly Recommend [Get Response](#) – it is super easy to use and you get the first month for Free!

You will also need a software program called [Boomerang List Builder](#) – which will allow you to package your gig delivery. Your buyer won't be able to open the package unless they'll put an Activation Code. To get it they'll need to put their email in and that's how you add them to your list – Simple and Brilliant!

Here's how it works:

- After your gig delivery files are ready you lock them with [Boomerang List Builder](#)
- You deliver the Gig
- Your buyer clicks on the delivery file and gets this box:

The image shows a blue-themed web page with the following content:

- Thank You For Downloading**
- Text: "Before you can use Easy Ecover Creator you must obtain an unlock code. This is a very quick process and will take less than 2 minutes. Please ensure you are connected to the Internet and then click the button below to obtain your code:"
- Button: "1. Click Here To Get Your Registration Code"
- Text: "When you have generated your unlock code, please enter it in the box below and click Submit"
- Form: "Code:" followed by an input field and a "2. Submit" button.
- Text: "[Click Here If You Need Support](#)"

- The buyer goes to a Squeeze Page (templates are included in the software) with your Opt-In Box and enters his/her email
- In the first email of your Auto-Responded sequence (that will be sent immediately after signing up) they'll receive the Verification Code

And that's it – the order is delivered and you just added your Fiverr Buyer to your email list!

You can set up an [Auto-Responder](#) follow up sequence so they'll get one email per day for the next 30 days (or more!) and it will make you money on Autopilot!

What to promote – you can promote your own products or services or other people's products as an affiliate. You can find Tons of products to promote on [ClickBank](#), [JVZoo](#) and [Warrior+](#) (for Internet Marketing offers). You can also use [OfferVault](#) to compare the best available products to promote.

What I'd suggest is doing a follow up this way:

Day 0 – you send the activation code

Day 1 – you ask if everything is ok with the order

Day 2,3,4 – you promote your 1st offer

Day 5 – you send them a Free Gift (an eBook)

Day 6,7,8 – you promote your 2nd offer

Day 9 – you send them a Free Gift (an eBook)

Etc

There's potential **GOLD** here and you will even be able to create a **Passive Income** from it if you'll choose the right offers with Recurring Monthly Commissions to promote!

And last but not least

If you would like to **work with me One-on-One**, you can!

I have a [One-on-One Fiverr Coaching Program](#) where I take you by the hand and make you a successful Fiverr Seller in **30 days or less**.

If you really want to start making money online, that is your chance to work with someone that already did it and can show you exactly what to do!

[Click Here to apply.](#)

And that's it! This is the method that has the potential to make you hundreds if not thousands of dollars 😊

Good luck and hope to hear from you soon!
