

Clickbank Affiliate Sales 2015

Note: This e-book is short but very powerful.

Please do not limit the power of this e-book due to its page length.

Hi, and welcome to Clickbank Affiliate Sales 2015. You have just made an excellent decision on making large amounts of money promoting just 2 Clickbank Vendors just like I do everyday which earns me over \$100,000 year after year.

Lets Get Started

Regardless of your experience on making money on the internet you have no worries as I am going to show you exactly what I do step by step that earns me over \$100,000 yearly just promoting two Clickbank Power Vendors Online!

I am not going to sit around and give a bunch of unnecessary information just to make you think you are getting your monies worth out of my E-book. I have been Self Employed since joining Clickbank in 2002 as an Affiliate and I have probably read more money making E-books then the average person on the internet.

I have even purchased some of the Most Popular Money Making and Marketing courses that I received by mail that actually had some good information, but did not have all of the Meat and Potatoes if you know what I mean. But I did get pieces here and there in order for me to be successful online.

OK, let's make it HAPPEN! If you are not already a clickbank affiliate, please go to this link to create an account and a clickbank nickname: [Click Here - Clickbank Affiliate Account](#) please complete this step before you continue.

Now, if you already have a clickbank affiliate account or just created one, it's time for you to jump on my back and get ready for the ride.

Remember, regardless of what goes on I am going to be here to give you one on one VIP Support until I have you making money within your Clickbank Account. I Love Helping People and I want you to succeed. I am going to give you my 13 years knowledge of making money on the internet. Even if you have some other opportunities going on in your life, feel free to ask me anything and I will give you my knowledge from my money making experience online and off. Just call me Your Coach for Life!

It's time for me to reveal my Top 2 Clickbank Vendors who I promote daily that makes me over \$100,000.00 yearly and where I promote them, and what system I have put together to make it work. Then you can learn it and do the same thing and make good money online within your clickbank affiliate account.

Clickbank Power Vendor Seller #1: cbaffiliatesales.com/number1/

Clickbank Power Vendor Seller #2: cbaffiliatesales.com/number2/

Now that you know what two Clickbank Vendors I promote as an Affiliate, it's time for you to duplicate my system. OK, I am going to make this simple, so beginners can follow my system. I am going to lay everything out in steps so it makes it easier for you to follow.

Let the Steps Begin:

Step 1: When promoting my Top 2 Vendors I like to Cloak my affiliate link. For those who are not familiar with cloaking your affiliate link, it is when you take for example a clickbank affiliate vendor link of: <http://1cbsales.Paid4Pics.hop.clickbank.net> and instead of promoting your affiliate link let's say in a text ad, you promote your domain you own like for example: 1MoneyWebsite.com

So, instead of promoting your clickbank affiliate link in a text ad, you promote your 1MoneyWebsite.com which will be directed to your clickbank affiliate link.

Let me give you two ad examples below to make it clearer for you.

Ad #1:

Get Paid To Take Pictures

Earn \$300 Daily

<http://1cbsales.Paid4Pics.hop.clickbank.net> - Non Cloaked Affiliate Link

Ad #2:

Get Paid To Take Pictures

Earn \$300 Daily

www.1MoneyWebsite.com – Cloak Affiliate Link

I personally cloak my clickbank affiliate links to hide my affiliate link as I think it looks more professional. So when someone clicks on my example site of: 1moneywebsite.com they actually will be directed to my clickbank affiliate like of: <http://1cbsales.Paid4Pics.hop.clickbank.net>

Also, when promoting the Clickbank Power Vendor Seller #1: cbaffiliatesales.com/number1/ I would purchase a domain name similar to the site I am promoting.

Example: Here is a one of my personal domains I use to promote Clickbank Power Vendor Seller #1: If you click on my site www.1getpaidtotakepictures.com you will see that it directs to my affiliate link. <http://getpaidtakingpictures.com/special-discount.php?hop=1cbsales> which you will see my clickbank nickname of **1cbsales** in the link above which I have highlighted for you in Yellow.

Now, you don't have to cloak your affiliate like I have done in order to make money. I do it because from my testing, I actually make more money because when placing the ads I am going to show you, if people believe you are an affiliate of the site you are promoting, a lot of people will move on because of not wanting you to make money off their purchase which I think is SAD!

If you want to Cloak you affiliate link just like I do, you have two choices. First, you will need to purchase your own web hosting and domain name. I highly suggest you obtain your domain name and web hosting from the same company I use at this link: cbaffiliatesales.com/webhosting you can just sign up with the Baby Package and be sure to purchase a domain name also.

Remember, when purchasing a domain name, you will need to make it similar to My Top 2 Clickbank Power Vendor Sellers Sites you are promoting below.

Clickbank Vendor #1 Site: autopilotprofits.com - My Domain: 1autopilotprofits.com

Clickbank Vendor #2 Site: getpaidtakingpictures.com - My Domain 1getpaidtakingpictures.com

When you purchase a domain name or two, just make sure you make it similar to the two Clickbank Vendor site you are promoting. Then when you have completed obtaining your domain name and web hosting account you will just need to send me the complete ftp log in information the company will send, your domain name(s), your clickbank nickname and I will cloak your domain name(s) for you and have you ready to start promoting.

Step 2: The second option you may want to do is just obtain a domain name from www.godaddy.com Once you have done this, you can pay me a one time fee of \$25 at this link: cbaffiliatesales.com/setup and I cloak your domain name and also host your domain name for one year.

If you don't want to do either of the Two Steps Above, you can just use your affiliate links below.

Step 3: If you don't use either Step 1 or 2 for your domain name setup.

To Promote Vendor **#1 Site:** getpaidtakingpictures.com/affiliates.php

This will be your Clickbank Affiliate Link: <http://YourCBNickName.Paid4Pics.hop.clickbank.net>

Just replace the “YourCBNickName” with your clickbank nickname.

To Promote Vendor **#2 Site:** www.autopilotprofits.com/jvo.htm

This will be your Clickbank Affiliate Link: <http://YourCBNickName.chiaewen.hop.clickbank.net>

Just replace the “YourCBNickName” with your clickbank nickname.

Let's Continue:

At this point, you will need to have decided if you are going to use a domain name to cloak your affiliate link or just use your direct affiliate link to place your ads.

Important: If you have decided to purchase a domain name, you need to submit it to the search engines. There are some free search engine submission tools on the internet. But, if you want to get your domain in all the search engines fast and receive free search engine traffic, you can obtain the service at this link www.cbaffiliatesales.com/seo
