## Introduction

Hi,

It's Billy Darr here on behalf of Venkata Ramana, David Kirby and Josh Baldock,

Firstly i'd just like to thank you for picking up this report, I hope you find it of tremendous value.

To make best use of this report it's in your best interest to read through it a few times and then take action and implement what I'm going to be teaching you.

I genuinely believe this is one of the best reports I've created and put out in the marketplace.

So with that said my name is Billy Darr and I'm going to be teaching you exactly how you can make money with CPA offers.

You might ask am I qualified to teach you?

Well I've pulled in multiple 6 figures online and have had alot of CPA experience on the Clicksure CPA network

making over \$10,000+ and sending well over 40,000 clicks to CPA offers.

You might be thinking what are the benefits of actually making money with CPA?

Well with CPA it is a pretty straight forward process of choosing a niche, choosing a high converting offer and then driving traffic to that offer in order to make money.

Now in this report i'm going to walk you through step-by-step exactly how to do that but also i'm going to give you 3 unique traffic strategies that you probably haven't come across yet.

Don't be fooled by these traffic strategies because 9 figure businesses also use some of them.

## Step 1 - How To Get Approved By CPA Networks

One of the biggest hurdles for new comers is getting approved by CPA networks.

I'm going to reveal how you can get approved by the traditional CPA networks and how you can use a new CPA network that doesn't require you to be approved.

Ok so the first part of getting approved is obviously you need to go ahead and sign up to some of the networks.

Now here's a list of a few of the popular CPA networks:

- 1) <https://peerfly.com/>
- 2) <http://maxbounty.com/>
- 3) <http://neverblue.com>
- 4) <http://clickbooth.com>
- 5) <http://mundomedia.com>

Ok so once you've signed up the next thing todo is usually they'll send you an email and most times they have a phone number that you can call to speed up the approval process.

If you call them up and explain how you will be driving traffic with mainly paid and free traffic sources they will usually approve you within a few hours of calling them.

However if you don't want to go through the process of calling up someone then you can stick to the non-approval CPA network being <http://clicksure.com>

So these guys don't require any approval you simply register for a free affiliate/CPA account and you're ready for step 2.

## Step 2 - How To Choose A High Paying Niche

The key to making alot of money with CPA is choosing a niche that actually pays you alot per sale/lead.

Now there are a bunch of different niches that you could potentially go into.

But I would recommend sticking to these 3

niches as the CPA payout is alot higher which means you make alot more money.

So the 3 niches to go into are :

- 1) Health/Fitness/Weight Loss
- 2) Make Money Online
- 3) Dating Niche

IF you want to validate that these niches are actually commercially viable you just need to do a Google search and you'll see a bunch of ads on the right hand side of the page.

What this means is that advertisers are paying to get their ads in front of potential customers because this market is extremely lucrative.

Now try that for yourself and you'll see a bunch of ads on Google.

Another way to validate the markets is to either look at potential views on YouTube for these niches or head over to clickbank and look at the popular products that are being sold most will be in these 3 niches.

For example here we have a YouTube video with over 3 million views now that's telling you something. Only 1 video with 3 million views means this particular it HOT!

Here's another example:

So as you can this weight loss niche video on belly fat has close 10 million views now do you think people in this market have a problem? More important do you they're willing to take action and buy a solution to solve their problem?

## Step 3 - How To Choose A High Converting CPA Offer

Ok so now that you are approved you ideally want to choose an offer to drive traffic to and make money.

So there's 2 ways of finding high converting CPA offers depending which network you

decide to work with.

The traditional CPA network will have a list of offers.

You'll be able to see the stats for all the offers on that network. You'll be able to see conversion stats and Earnings Per Click stats and alot more.

So for example if out every 100 visitors 30 people are taking an action that would result in a 30% conversion rate. Anything from 10% and higher is considered good and is something I wouldn't mind personally promoting.

Anything that has a conversion rate less then 10% is usually something i stay away from.

Also another key factor to bare in mind is EPC or Earnings Per Click which is determined by the **(CPA payout rate multiplied by conversions you get)/100**

For example say you were getting paid \$5 CPA and you made 10 conversions this how it would look

**$(\$5 \times 10 = 50) / 100 \text{ EPC} = \$0.50$**

I like to stay away from anything earning me less \$1 per click but then again it's all about R.O.I and how much you're investing to make that money.

### Live Marketplace

The screenshot shows the 'Live Marketplace' interface. At the top, there is a button labeled 'View Launch Calendar' with a green 'NEW' badge. Below this are two tabs: 'Launch Offers' and 'Top Offers', with 'Top Offers' being the active tab. A list of 10 offers is displayed under the 'Top Offers' tab:

1. Millionaires Blueprint ...
2. GoogleTrader (Multi-CPA...
3. Million Dollar Duplicat...
4. Protected Profits
5. 12 Minute Pay Day
6. Global Profits
7. 18 Minutes
8. My Internet Success Coa...
9. Pro Robot (MultiCPA)
10. Elite Gold Profits

If you decided to go for the Clicksure network unfortunately they don't actually share conversions and EPC stats but what they do have is something called Top Offers:

Top Offers actually makes it alot easier for you to choose a high paying, high converting CPA Offer.

Usually these Top Offers are in this section because they convert extremely well and alot of marketers are making good money with them.

So you can just pick any one of the top 10 offers and you're good to start driving traffic.

## Step 4 - Viral Tag Traffic Hack

The Viral Tag Traffic hack is a free traffic method that involves leveraging one of most visited websites in the world.

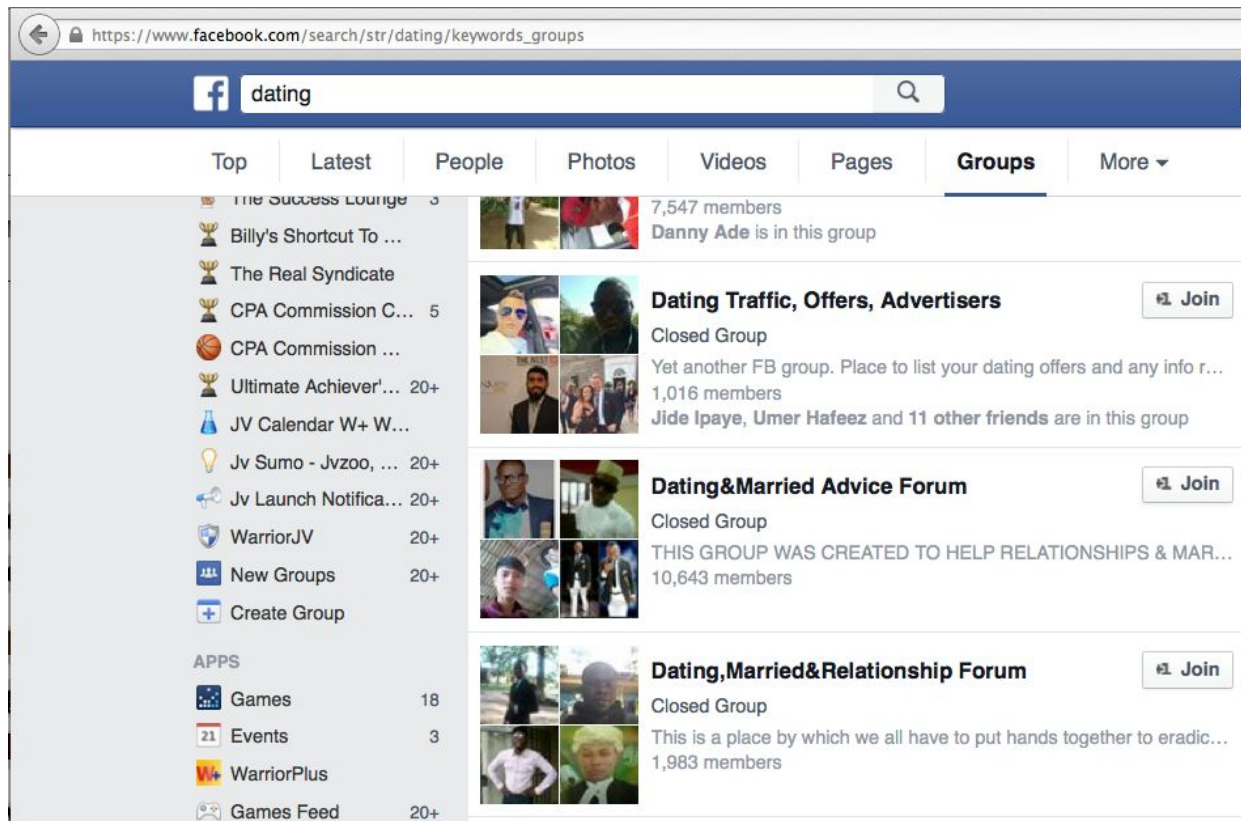

Facebook is what i'm talking about, but to be more precise i'm talking about leveraging Facebook groups for free laser targeted traffic.

So if you do a search on Facebook for any topic you'll find there's a group in just about every single niche.

Now you just need to get your CPA offers in front of the relevant audience.

So for example if you're targeting the dating niche it would be a good idea to join the dating groups on Facebook.

So as you can see in the image below to see the groups once you've done a search, you just need to click on the groups tab.

Once you've joined the groups and been accepted which usually only take a few hours you then need to contact the group admin.

It is usually hard to find the admins on a Facebook Page but on groups they just put it right there on the page.

Now if you click on the link you will be taken to their personal page.

Now we can either message them directly or add them as a friend and then message them.

You can either use your own personal account or you can buy one for this method.

To buy an account just visit this link:

<http://livelyservice.com/PVA.html>

I would go with the personal account. It is still under \$2 and it comes with 9+ images which will make it look a lot more believable.

If you know what niche you are going after then you will want to change the activities to match your niche.

If you are trying to brand your own account because you are really in that niche then by all means use your own personal account.

Now, when you contact these people you will want to introduce yourself and tell them what you are looking for.

Make sure that you like their page 1st as well. This will make them a lot more likely to get back to you ;-)

Now, what in the hell are you going to offer them to get them to send you traffic?

What I like to do is a free report of some sort. This is going to be a viral report.

That means that we are going to make it both beneficial to them and you as well.

The way you do that is to offer them a link at the end of the report.

That link can lead back to their FanPage, it can lead back to their website or videos or anything that they want you to link back to.

You will add it to the report for them.

If that doesn't work, you can also offer them a cut of the profits you make.

It is amazingly effective and it will motivate them to share it more often.

Now we need to explain to them how this is going to go viral.

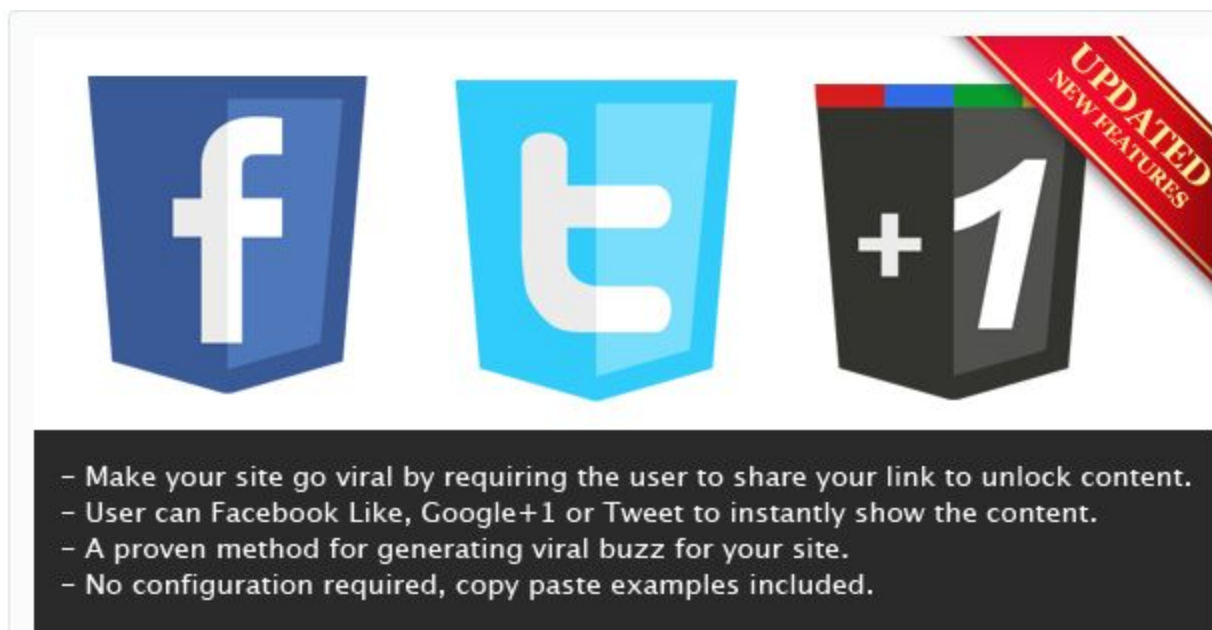

The admin already has the people in their group so if the report doesn't go outside their group then it will have no benefit for the admin.

What we are going to do is use an app that will lock the page and force them to share it on FB if they want to download the viral report.

The easiest way to implement this viral effect is by picking up a simple script from Code Canyon.

<http://codecanyon.net/item/viral-lock-php-like-google1-or-tweet-to-unlock/1632879>

This script will force the visitor to share/like your post in order to visit your download page to download the free report.

You would monetize the report by including relevant CPA offers so that you can get paid.

You could also have an optin form on the download page to build up a list that you would send out CPA offers to in order to make the most of the traffic you're getting.

One final strategy would be to also place banners on the download page linking back to the relevant CPA offer that you're trying to promote.

## Step 5 - Torrent Traffic Avalanche

Do you want to see some crazy stats?

This is taken directly off the Wikipedia page for BitTorrent: "BitTorrent is a peer-to-peer file sharing

protocol used for distributing large amounts of data over the internet.

BitTorrent is one of the most common protocols for transferring large files, and it has been estimated that it accounted for roughly 27% to 55% of all Internet traffic.

Programmer Bram Cohen designed the protocol in April 2001 and released a first implementation on July 2, 2001.

It is now maintained by Cohen's company BitTorrent, Inc. There are numerous BitTorrent clients available for a variety of computing platforms.

As of 2011 BitTorrent has 100 million users and a greater share of network bandwidth than Netflix and Hulu combined.

At any given instant of time BitTorrent has, on average, more active users than YouTube and Facebook combined.

Most people here the word Torrents and they instantly think of illegal downloads and piracy.

That is because people think of piratebay and downloading illegal music and films.

While that is what a percentage of torrents are used for the amount of traffic passing through their system is mind boggling.

To put it in perspective, FaceBook and Twitter both utilize BitTorrent for faster downloads.

Amazon S3 comes equipped with built in BitTorrent. That shows you how huge and prevalent the technology is.

It wasn't till a few months ago that NetFlix passed BitTorrent.

The reason they did pass them is because of the large number of internet ready TV's on the market that allow

people to stream Netflix straight to their TVs and mobile phones.

If you want to do a little research into BitTorrents massive reach there are plenty of outlets that you can learn exactly what it is and how it operates.

I won't bore you with those details because you don't need to know exactly how it works.

All you need to know is that there is a ton of traffic out there.

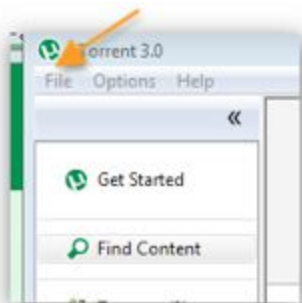

What we want to focus on is how to monetize this traffic and make easy CPA cash.

With that, let's get started.

To create a torrent file you will 1<sup>st</sup> need a client downloaded onto your computer.

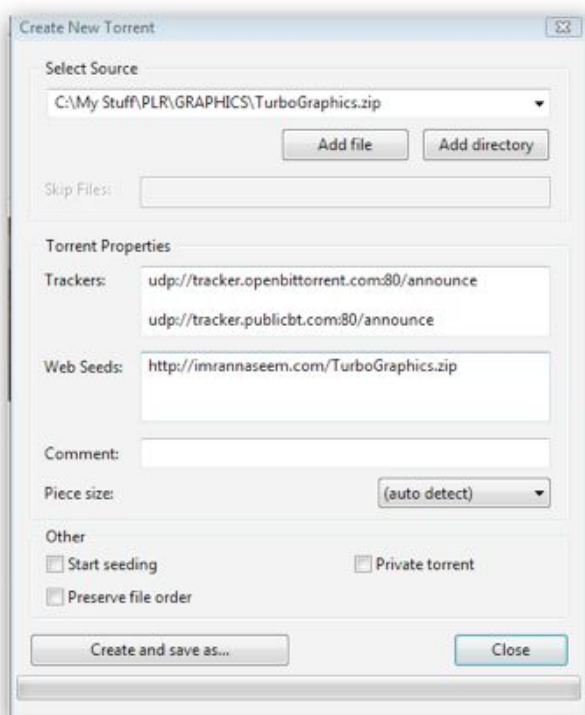

What this will do is break your file down into a "torrent" or smaller packets that will allow someone else to download them all from a separate location and then reassemble them to a complete file.

<http://www.utorrent.com/>

Once you download the client and install it you will see this. To create your 1<sup>st</sup> torrent click on the file tab and select “create new torrent”.

Lets create a torrent quickly:

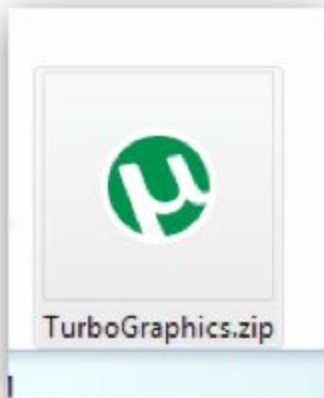

You will want to .zip up the product/project. We will talk about password protecting them as well later on.

I usually leave the trackers section as the default. The openbittorrent 1 is updated regularly since it is open source.

To create the web seed simply upload the same file to any website that you have and include a link to that file here.

All you have to do is click on “Create and Save as” and save it to your computer.

That is what it will look like. Congrats, you have just created your 1<sup>st</sup> torrent file. How easy was that?

Now before we go into uploading the torrents and all that good stuff we need to talk about how to monetize the traffic.

There are 2 very easy ways to go about this. Let's talk about the 1<sup>st</sup> method.

The 1<sup>st</sup> way to monetize the traffic is to add CPA links to the pdf.

These links can lead to your cpa offers.

Let's walk through an example.

1 of the biggest niches to go after using torrents is the dating niche.

This thing is absolutely HUGE!

The best part of it is that it is also 1 of the easiest niches to monetize. Head on over to CJ.com and check out the offers that they have for match making.

All you would need is some good dating PLR that you can use to upload to the torrent sites and insert your CPA affiliate links to the dating offers.

Make money online is also a big part of the torrent downloads.

Anyone who is getting started online needs to have web hosting.

All you have to do is put a few eBooks on the torrent sites that talk about getting your 1<sup>st</sup> website up and running.

Then head on over to [Host Gator](#) and set up an affiliate account. Once inside you will want to click on “Manage Coupons”.

Then set up a coupon below:

Now every time you talk about hosting in your ebook you can mention the coupon code that you set up with a link to Host Gator so that they can get hosting for \$0.01 for the 1<sup>st</sup> month.

The payouts go up to \$125 per sign up once you hit 25 signups a month.

Once you get going on getting some IM reports on the torrent sites you will start to see commissions trickle in.

Then as the amount of reports that you get out there starts to grow those commissions will start to increase daily.

Pretty soon you won't even be able to stop them unless you cancel your affiliate account!

The other good program to advertise in any IM product that you put out there is [Aweber](#).

They always have it set up so that you can get the 1<sup>st</sup> month for \$1. The people who read your ebooks won't

know this.

All you have to do is place in your ebook: "Click this link to get your 1<sup>st</sup> month of Aweber for \$1"

Since this is a recurring commission you get every single month that they continue to pay your monthly revenue will continue to grow every single month.

Those are 2 different niches that you can get involved in right this second and start making a ton of money using torrents.

Now let's talk about the 2<sup>nd</sup> method because this is the big 1. This is the way to make a ton of money from torrents.

What you will be doing is letting people download stuff in a .zip file. Once they open it they will see 2 different files. 1 will be the .zip of the product/report/video that they want and the other file will be a simple text file.

Now the "datingreviewsite" file will be password protected.

When you open the Read Me file it will tell them what they need to do to get the password.

This can be:

1. Fill out a CPA offer
2. Opt in to a Squeeze Page
3. Click like on a Facebook Fan Page
4. Anything else that you can think of!

Here is a list to get you started:

<http://torrentcafe.com/>

<http://www.torrentzap.com/>

<http://www.torrentbit.net/>

<http://www.torlock.com/>

<http://plentyoftorrents.com/>

<http://isohunt.com/>

<http://www.mininova.org/>

<http://www.kat.ph/>

<http://bitsnoop.com/>

<http://torrents.to/>

So now you know how to turn this type of traffic into CPA conversions.

As you can see, torrents are a huge source of LEGITIMATE traffic.

Now using what you have learned here you can tap into this never ending source of traffic.

Not to mention that you can get an endless stream of content from torrents and then just repurpose the content to make you money!

## Step 6 - Covert Traffic Secret

Welcome to the Covert Traffic Secret section. In this section i'm going to reveal a traffic method that you've probably never come across in any other report or product that you've bought online before.

So this method involves printing flyers, leaflets or postcards with details of your CPA offer, So when people visit a particular link they get taken to the CPA offer, take an action and you get paid.

It's just another method of advertising.

Huge companies such as Walmart deploy this to rake tens of thousands of dollars every single year.

So the first step that you would need to take in order to implement strategy is find a designer on Fiverr.com that can create a leaflet design, postcard or flyer for you.

Obviously you want this flyer/leaflet/postcard to be relevant to the CPA offer that you're promoting.

Once you've got a design done and you've either printed them off yourself or got a professional provider to do it for you, you then need to think about distribution.

So you can get a professional printer to print 1000 leaflets with design for only \$25 so that's about \$0.25 cents per leaflet.

So once you have your flyer or leaflet printed off and in your hands you want to thinking about where you're going to distribute these leaflets.

For example if it's an free iPhone CPA offer you could actually leave these leaflets in a library.

Now as you can see this offer requires people to enter a zip code. Once the person enters their zip code then you get paid just over \$1.50 (depending on the payout of your CPA Network).

Now make sure your Flyer has an image of the product (e.g. Iphone 4) and at the bottom there is a link which would take to the actual CPA Landing page.

Now when it comes to entering your URL link at the bottom you can use a domain name (simply buy a cheap .info name) or you can use <http://bit.ly/> at the bottom of the flyer.

Now a lot of “Free Iphone 4 offers” are popular with the general public.

If you are going to focus on libraries all you need to do is talk to the library manager and ask their permission to leave flyers/leaflets next to the computers.

You can also contact other institutions such as Universities/Colleges to distribute leaflets to students.

Here is another example of a CPA offer and how you would use this method to make maximum cash.

As you can see all the user needs to do is select their make-up gift card and then enter their email address.

This type of CPA offer will generally be targeted towards female students.

## Scaling Up This Method

So if you wanted to really get serious about pumping out leaflets you can use a professional distribution services that usually charge \$100 or more depending on the volume of leaflets you want to give out.

Alternatively there are people on Fiverr.com that are also willing to distribute leaflets for example this gig here:

**lifepain: I will post 2 flyers promoting your website or business around the campus to 55,000 Students of University Of Houston, Texas for \$5**

**Order Now**  
1 orders in queue  
[Contact Seller](#)

In: **Advertising** • Usually delivers within **3 days**

 1  0 100% Positive  Like

The University of Houston is in the vibrant international city of Houston with 50,000+ students. Your website flyer will be posted in the most busiest area, near the bus stop where 1000s of student wait everyday to get to there classes or parked cars (as seen in the picture). I will post flyers promoting your cause and provide pictures for proof. The exposure you can get is massive as students wait 15 mins for the bus in the same spot everyday.

For more indepth step by step instructions on this method  
please watch this video here:

<http://covertcpacrusher.com/xxsecret1.html>

## Step 7 - The Tube Loophole

In this final section I'm going to be sharing a traffic method i've used to generate thousands of dollars in CPA commissions as well build a list of 7500 subscribers.

YouTube is one of the most visited websites on the internet. What that means is it gets thousands of visitors on a daily basis.

Now it doesnt matter what niche you're in, you can tap into every niche on YouTube.

However there is a simple formula you must follow that will allow you to get tons of high quality traffic from YouTube.

**Step 1** - Create A Review Video About The CPA Offer You're Promoting

**Step 2** - Record & Upload The Video

**Step 3** - Use QQTube to boost your video on YouTube and force YouTube to send you tons of laser targeted traffic

So now you the basic outline i'm going to go into more detail for each step.

So once you've found an offer you want to make a short powerpoint presentation around 7 slides reviewing the CPA product.

To make your life easier i'll give you the outline of the powerpoint slides and what I think you must include:

**Slide 1:** CPA Offer Name

**Slide 2:** Introduction To Who You Are

**Slide 3:** Benefits To End User Of What The CPA Offer Is Giving Them

**Slide 4:** Features Of The CPA Offers

**Slide 5:** Your Thought's On The Offer And Why They Should Either Optin/Make A Purchase

**Slide 6:** Depending On CPA Offer You Could Offer Bonuses

**Slide 7:** Call To Action Telling The Viewer What To Do Next

After you've got this powerpoint presentation ready, you then want to use a screen recording software such as Camtasia to record your screen and talk over the presentation.

Once you've recorded the presentation camtasia will give an MP4 which is ready to upload to the mighty YouTube.

To upload to YouTube you simply need to head over to this link here:

<https://www.youtube.com/upload>

You'll be presented with a screen like this once you've chosen the MP4 file that you want to upload:

The screenshot displays the YouTube upload page with the 'Basic info' tab selected. At the top, a blue banner asks if the user knows they can set defaults for future uploads, with a 'Configure defaults' link. Below this, a progress bar shows 'UPLOADING 20%' and '4 minutes remaining'. A message states: 'Your video is still uploading. Please keep this page open until it's done.' and 'Some changes have not yet been saved.' The 'Basic info' tab is active, showing fields for 'Enter Your CPA Offer Name Here + Review', 'Enter Your HTTP://YOURAFFILIATELINK.COM LINK HERE', and 'CPA OFFER KEYWORD'. There are also 'Suggested tags' like '+ Review (Media Genre)', '+ Film (Media Genre)', and '+ Your'. A 'VIDEO THUMBNAILS' section indicates that thumbnail selections will appear when the video has finished processing. On the right, there's a 'Public' dropdown, a 'Add a message to your video' box, and social sharing options for Google+, Facebook, and Twitter. A '+ Add to playlist' button is also present. At the bottom right, there are links for 'Video Manager' and '+ Add more videos'.

So there's some important fields that you need to fill out correctly if you want YouTube to actually send you traffic:

**Title:** In the title section you want to enter name of the CPA Offer so for example It might be “Win A Free iPhone 6 Review” or “Win A Free iPhone 6 The Truth”

**Description:** This is where you want the link which leads to your CPA offer so after people watch the video they click on this link and go and take the action you want, i.e. submitting their email, entering their zip code or buying a product.

**Tags:** In this section you want to add in the relevant keywords related to your CPA offer.

So once your video is on YouTube you then want to headover to [QQTube.com](http://QQTube.com) and this is where the magic happens.

We want to buy at least 2000 videos and 50 likes for your video.

When YouTube see's a brand new video getting alot of likes and views there is something within their algorithm which forces them to push your video to the top for the given keywords.

This results in tons of laser targeted traffic.

For more indepth step by step instructions on this method please watch this video here:

<http://tubecommissionloophole.com/xxsecret1.html>

## The Wrap Up

So I hope you have enjoyed this short report and I hope I have given you a lot of actionable steps in this report.

The only way you will achieve your goals is by taking action and executing fast.

Don't worry about getting everything perfect just work on getting something out there asap.

Remember the thousand mile journey starts by taking the first step so I recommend going to the top of this report and reading it again, take action and go get the results you so desperately desire.

If you have any questions or feedback then feel free to drop me a line to [paybillyd@gmail.com](mailto:paybillyd@gmail.com) - I look forward to hearing from you.

On Behalf Of  
Billy Darr, David Kirby, Venkata Ramana and Josh

Baldock
