Immediately after clicking averages, the below screen will pop up and then you will need to click on gravity. Remember this is a very crucial factor for you to decide which product you should pick and what not. The gravity indicates how many sales the particular product has made for last week. The higher the gravity, the higher the sales the product is having and the higher is the competition because there are a lot of affiliates promoting that product.

What I recommend is that you choose the gravity below 60 and this work really well for you.

Remember that there is a rule that I have for myself. Whenever you put a search bid always keep the price 1% of what commission you will get after a product is sold. It works very well. So in this case I have just written 0.30 but you have to check what commission you are getting. For content bid just keep it standard for 0.15

How to Double and Triple Your Income within Days

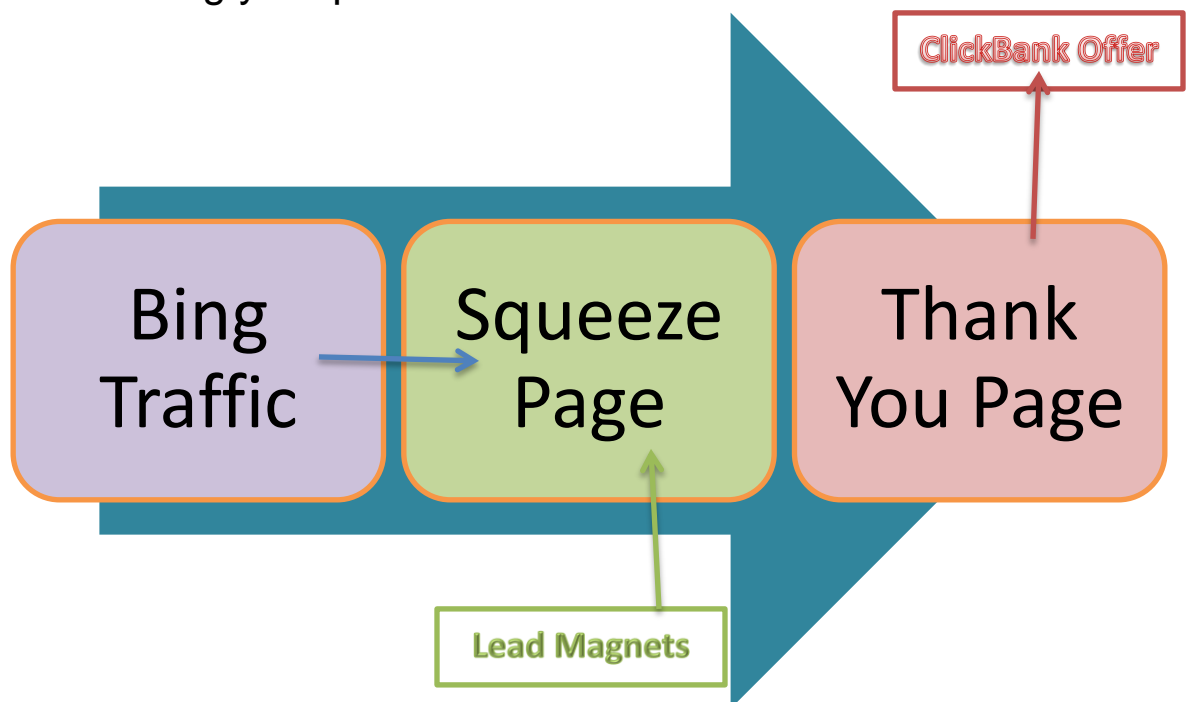

Alright guys so till now we were talking about the direct linking methods with Bing ads where you direct link your click bank offer with Bing ads. This is the easiest way to get started on Bing and make some money.

But now I will tell you something which will not only make you money upfront but it will also provide you long term income and in fact will double or triple your income.

Yes so here is a breakdown of what you have to do:

- 1) Create a Squeeze Page. You can copy high converting designs to get max conversions.
- 2) Attach a Lead magnet to that squeeze page. Can be an eBook or Video presentation etc.
- 3) Get the subscribers and direct them to your Click bank offer or simply get them to your thank you page where you have multiple offers to promote.

- 4) Many times it happens that the customer doesn't buy the stuff at one time and so you will have to keep reminding them about the product. So when you have them as your subscribers then you can follow up with them. So now you have chance to promote them over and over again thereby maximizing your profits.

This information provided to you is truly actionable and 100% results driven if you take action. But I still know that a lot of people are having questions in their mind for ex:

- 1) I don't know how to create a squeeze page.
- 2) I don't how can I create a lead magnet.
- 3) What if I don't get results in spite of doing all in this training?

- 5) How would I know which keywords are actually driving me sales? (Biggest question in many marketer's mind)
