

IMPORTANT UPDATE!!!

During the time we were creating this course we noticed that there were only a few sellers on Seoclercks that were still selling Bing coupons.

But there is no need to worry, because we have listed some sites to get Bing coupons free or paid. Choose from the list below:

Important notes:

*We haven't tested the paid sites that sell Bing coupons yet, so be very careful when you buy the coupons. If you choose to get Bing coupon with paid methods, we highly recommend you to select the [fiverr.com](https://www.fiverr.com) and the hosting method (as you will see in the main product, many hosting sites provide you a Bing coupon when you register in them and you have to pay only a very small fee).

** We are sure that if you search for Bing coupons you can find even more sites that provide coupons.

*** You could ask Bing support to give you one coupon for free.

Ok now I want you to relax and go to the main training and when you finish come back here to get your coupon and start getting your High Quality Traffic! ;)

If you need any help, don't hesitate to ask!

You can write your question in our [Facebook Group](#) or send us an email in support@targetedtrafficblueprint.com
