# DFY Solo Profit Funnel

## Welcome!

And thank you for picking up **DFY (Done For You) Solo Profit Funnel!**

DFY Solo Profit Funnel is all about quickly positioning yourself for making cash from the Internet, taking advantage of the "Done for you," plug and play "Solo profit funnel." The funnel will help you to skip tons of work and jump right into making profits. This report will help you to understand the funnel you just purchased. You'll know how to install it, what to do with it and how to use it for maximum profits.

It doesn't matter what your experience level is, with the DFY Solo Profit Funnel, you can start making money even you have joined Internet Marketing today. Because, we have laid the system in that way!

But before we dig deep into it, let me tell about myself a bit. My name is Khondoker and since it's difficult to pronounce it for most of you (lol), you can just call me, "K". That's what my Internet marketing associates, partners, fellow-mastermind-group-members and mentors call me!

# DFY Solo Profit Funnel

I'm in the Internet Marketing for five years now- full time, with no day job right from the start. The first year was difficult trying to make it, but I had my goal ahead and had the drive to reach the goal. I advanced taking one step at a time and eventually reached my primary goal, which was earning \$100 a day.

I used to find and write contents all day and night at the oDesk to meet my expenses- initially that was how I started my IM journey! But things changed within a year. I managed a couple of local companies selling international brands (like KFC, Pizza Hut) and appointed as their fan page administrator. It was 15 minutes work per day per page, and they were paying me more than enough and leaving me sufficient time to concentrate on my Internet marketing business.

Moreover, I considered myself lucky because the first thing I did (the day I started my IM journey) was to create a free account at the Warrior forum. Everything I know about IM, I learned from there (and still learning).

By the end of 2011, a number of my affiliate sites (Amazon & Click Bank) were making me a steady income, and I was happy with the growth. But then, the Google Panda and Penguin updates ruined everything. I went through almost a

# DFY Solo Profit Funnel

year down time, frustrated, trying to figure out my direction. One thing I understood by the incident that I cannot let others to control my traffic flow (which is the life blood of my business). I have to create my own traffic, my own private audience over whom I'll have the total control! So I focused all my attention to build my email list. I started list building and email marketing at the end of 2013, and it has given me the success beyond my expectation!

I build my list using several methods. And I am about to reveal the most successful among the methods I have implemented so far. This method runs almost on an auto-pilot, building my list and making me money at the same time!

In DFY Solo Profit Funnel report, I have laid the exact system I use. So, I won't keep you waiting any longer... let's jump into the meat and start making money.

## 1. Overview

Here is the overview of the system we will be using for “DFY Solo Profit Funnel.”

DFY Solo Profit Funnel is based on the three-step success model. If you can recall that the three-step success model was like this:

- 1) Traffic Generation-** We will cover this issue, mostly with solo ads.
- 2) A proper sales funnel-** We have done it for you, but you have to upload everything into your server to make it functional- step by step instruction is provided later in this report.
- 3) The ability to build a relationship with those that enter your sales funnel –** done for you as well, through a series of emails, to be placed in your email management software, i.e. Aweber, Getresponse, Mail Chimp, etc.

Don't worry if you cannot relate these three steps with what you already have downloaded. We will go through everything in detail later.

Your “DFY Solo Profit Funnel” is the 2nd & 3rd component of the three-step success model above.

The three step success model for the system we will be using to build our

# DFY Solo Profit Funnel

complete business and your “DFY Solo Profit Funnel” with everything in it is the major elements within this business system.

This DFY Solo Profit Funnel also has four elements in it:

A reverse squeeze page.

An OTO (One-time time offer)

Auto-responder email sequence

## A Reverse Squeeze Page- Front End Product

You need to understand “Squeeze Page” first to understand a “Reverse Squeeze Page.” A Squeeze page is the web page with a subscription sign-up or optin form in the front and content supplied after the subscription is called a “Squeeze Page.” Here is an example below how a squeeze page looks like:

# DFY Solo Profit Funnel

In the squeeze pages, subscription is encouraged by announcing a valuable content. There's no way to know what type and quality of content a visitor will receive after putting in his email to a squeeze page.

Reverse squeeze pages are just the opposite. The visitors are sent to a page, where there are contents, they might be interested in. If they like the content and feel interested to know more on the subject, the opt-in form is presented to them.

We are using reverse squeeze page for a specific purpose. We are placing not one but three pages before one could subscribe, also for a specific purpose. The optin rate might be better with the traditional squeeze page, but they might not be responsive. With reverse squeeze page, the subscribers will be much more responsive as they already trust you reading your content. They know what to expect! They are already committed! So whatever offer you sent them to (by emails), they will respond.

## **An OTO (One-time time offer)**

The subscribers from our reverse squeeze page will be forwarded to this offer page where you are going to put a product to sell and make money. Don't

# DFY Solo Profit Funnel

worry, the product has already been prepared for you and placed at the right place in your funnel. The reverse squeeze pages with the auto-responder emails together has been arranged to be the OTO product in the funnel you have purchased and you'll be selling it at \$17 to your subscribers!

## **Auto-responder email sequence**

Some of your subscribers will not purchase your OTO products. But You'll have their emails as they already subscribed to your reverse squeeze page. They didn't purchase, but you'll email them to extract profit from them. In those emails, there will be your affiliate links. Possibilities are there that they will purchase from your affiliate link and make you some commissions. We have written 7 convincing emails for you. These will be sent automatically from your auto responder account, one each day, up to 7 days!

## **How The System Runs**

The system runs like this: you have to purchase traffic from soload vendors and send the visitors to your DFY Solo Profit Funnel. Your visitors will land at the first page of your reverse squeeze page, read the content there, and if they like, they will visit the 2nd page of your reverse squeeze page by clicking "click here to continue" button near the bottom of the first page.

# DFY Solo Profit Funnel

Emails of your visitors will be captured here and they will be sent automatically to your OTO sales page. Here they may purchase your product, or they don't. This purchase should cover the expenses of purchasing solo ads and make some profits.

Some of your visitors may not buy your OTO and but their emails are already captured. There are 7 emails (Done for you) that will go out automatically in seven days. There will be your affiliate links in those emails. You'll have the opportunity to make affiliate commissions from these 7 emails.

That's all from the 'DFY Solo Profit Funnel' overview. Do not worry if you are not clear about the system yet! We will cover everything later. We will also go through all the files of your downloads.

## 2. Your Download

You are reading this report means you have downloaded your “**Resources**” zipped file and unzipped it. You are not getting any funnel files with your download, because I'm letting you clone my funnel pages, infactmy entire site. I'll show the cloning process later in this report.

# DFY Solo Profit Funnel

## 3. System Set Up Requirements

You'll need some resources to set up your funnel. I'll go through all of them, one by one.

### a. Domain Name

You'll need a domain name to set up your funnel. If you already have one, you can use that. Even you can upload the funnel making a new directory at your current domain name.

If you don't have your own domain, you'll need to get hold of one. I'll show you how to get it in a minute. In this purpose, we will use names like Bobsmarketing.com or Bobonline.com etc., whatever is available. I hope you got what I mean?

There are a number of good domain name registrants out there like [Go Daddy](#), [Name Cheap](#), but what I use is [Name.com](#). I use [Name.com](#) because I can always find discount coupons whenever I had to buy a domain name there. I Google using "Name.com discount coupon" and that's it. I always can purchase

# DFY Solo Profit Funnel

a domain name with a dollar less.

So, head over to [Name.com Creat Account](#) page, if you have to buy a domain name. Fill up the application page to create your account there, it's pretty straight forward. Log in to your account after your account has been created. You'll find a search box, search the name you want to find to see if it's available.

You also can watch this YouTube video to understand [how to buy domain names from name.com](#).

## **b) Hosting Account**

You'll need your personal hosting account for setting up funnel. I'll show you how to acquire one if you don't have your own hosting already.

There are many hosting companies out there, but none can beat [Host Gator](#) and [Blue Host](#). These two are the top-most service providers, and I know it because I am using both. Their 24 hour customer service is incredible! You can start with less than \$4 a month with them.

# DFY Solo Profit Funnel

So let's head over to [Host Gator](#) and choose a plan. I prefer “Baby” plan over “Hatchling” plan because it will be easier to expand your business. You can take “Hatchling” plan if you want to. Click on “Order Now” and it will take you to the Host Gator Order Wizard page.

The image shows the HostGator Order Wizard page. At the top, there is a HostGator logo with the tagline "we eat up the competition". To the right of the logo, there is contact information: "Toll Free: 1.866.96.GATOR" and "Local: 1.713.574.5287". A "LIVE CHAT" button is also present. Below the contact information, it says "Now hosting over 9,000,000 domains!". The main heading of the form is "HostGator Order Wizard". The first section is "Please enter a domain." with a sub-header "Getting started is easy! Just enter your domain below and we'll tell you if it's available to use. If you already own it, we can help move your domain to HostGator.com." There are two radio buttons: "Register a new domain." and "I already own this domain." The second option is selected. Below the radio buttons is a text input field labeled "Enter your domain here:" with the value "bobsgiftselection.com". The second section is "Please confirm your hosting package information:" with two dropdown menus: "Package Type" set to "Hatchling" and "Billing Cycle" set to "36 Month @ 3.96/mo 20.000% Percent Off!". The third section is "Please choose your account information:" with two text input fields: "Username" and "Security Pin". Red arrows point to the "I already own this domain." radio button, the domain input field, and the "Billing Cycle" dropdown menu.

Check “I already own this domain,” type your domain name in the box and select the payment plan you feel comfortable. Furnish the rest of the

# DFY Solo Profit Funnel

information, including checking “terms & condition” box and hit “create account.”

Your first hosting account has been created. They will send the account details by email. Keep that mail in a safe place for any future reference.

To get more on creating an account on Host Gator, you can watch this [YouTube video](#).

## C. Adding Domain Name To Hosting Account

Now, log in to your hosting account. You'll get your cpanel after login. You should take time to familiarize with the panel in you are a new user. With all that icons, it may appear a bit overwhelming.

It happens to every new user, but eventually everything becomes familiar with time. There are a lot of tutorial videos to help you, you should check these whenever you need to know an issue regarding cpanel.

# DFY Solo Profit Funnel

For now, I'll show you only what you need to set up the funnel. Scroll down to bottom of your cpanel and check at the left column for your name servers.

Account Information	
Package	Business
IP Address	193.10.24.1
Server Name	gator4
Name Servers	
ns0000.hostgator.com	
ns0000.hostgator.com	

Your name servers are unique to your account, and you'll require these quite often. Copy both of your name servers in a note pad for now. Then head over to "Domains" section and click on "Adon Domains."

# DFY Solo Profit Funnel

Type your domain name and password in the first input box in the next page.  
Leave rest of the input box blank and hit “Add Domain.”

## Create an Addon Domain

Hint: This feature must be enabled for your account before you can use it. Addon domains will not function unless the domain name is registered with a valid registrar and configured to point to the correct DNS servers.

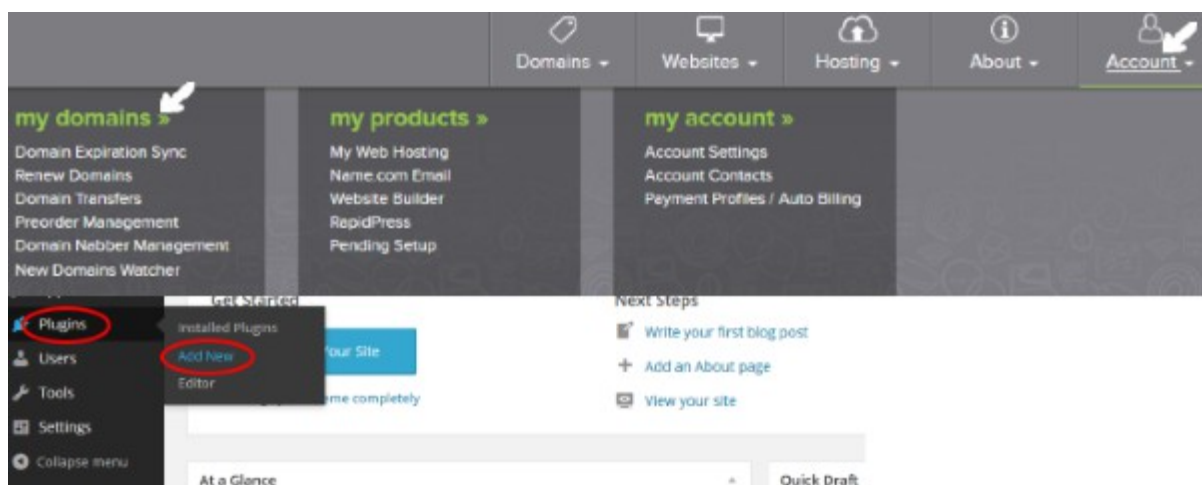

# DFY Solo Profit Funnel

You have successfully added your domain name to your hosting account.

## d. Connecting Domain Name From Domain Registrant and Hosting Accounts

Once you have added your domain name to your hosting account, you have to connect it with your domain registrar. Log in to your name.com account for this purpose. Click on “Account” and “My Domains” from drop-down menu.

You'll see your domain name in the next page, click on it and then click on “Edit Name servers”.

“update.” And that's it. You have connected your domain name to your hosting account. Now, it may take up to 24 hours to propagate your connection. You have to allow that time before you go to the next step.

Type your domain name in your browser, if you see something like “cgi bin”, then your domain name is connected with your hosting account.

## e. Auto Responders

You'll need your auto-responder account to set up the funnel and maintain your subscribers. There are many companies out there to choose from but you cannot go wrong with these two. **1. [GetResponse](#)** **2. [Aweber](#)**. Naturally, I'll recommend these two because I'm using both and happy using! But don't take my word alone and do some research as well!

Setting up an auto-responder account is easy. Just go to the home page of the company and follow the instructions there. Make an account if you don't have already.

Showing the setup process in your auto-responder account is almost impossible

# DFY Solo Profit Funnel

as you will be using different **company** account and there a lot of it! Luckily, “how to tutorial videos” are provided in most companies. You also can search YouTube using like,” How to upload auto-responder emails in .....” and there will be tons of videos to walk you through. Just search YouTube!

## 4. Installing Word press for Clonning Site

My solo profit funnel is in a word press site and you are going to clone my site. You have to install a new word press site in your domain or in a domain directory. Now head over to your hosting account cpanel.

Scroll down to “Software/Services” section and click on “QuickInstall”.

Click on “Word Press” to the right and then on “Continue”. This will show you the main installation page.

You will find your domain name from the drop-down menu. Fill out the rest of the field and click on "Install." That's it. You have installed your first Word press blog. You'll see notice in the next page a bunch of information regarding your blog, including back office login info. It looks like: <http://yourdomain.com/wp-admin>. Information here are important, and you want to save these.

## a. Changing Your Blog Password

Now, let's head over to your word press blog dashboard. Click on <http://yourdomain.com/wp-admin> and use password they provided to login. First, you should get rid of the ugly password they have provided and replace it with your personal one.

From your left panel of the dash board, hover your mouse on "users" and click on "Your Profile" from the drop-down menu.

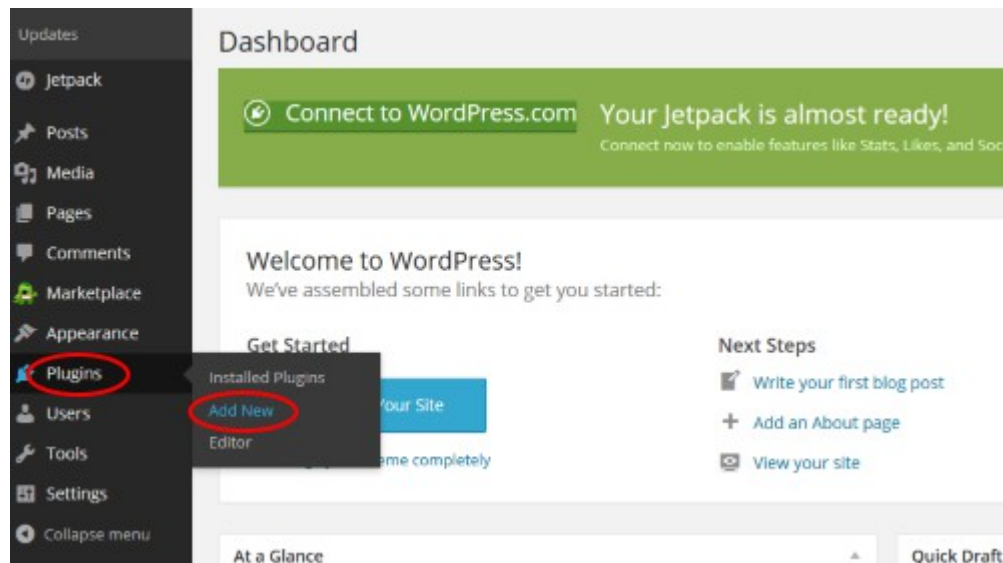

# DFY Solo Profit Funnel

Scroll down at your profile page and insert your new password twice in the input boxes and click on "Update Profile." Next time you can enter the dash board with your user name and the new password.

## b. Installing "Wp Clone" Plugin

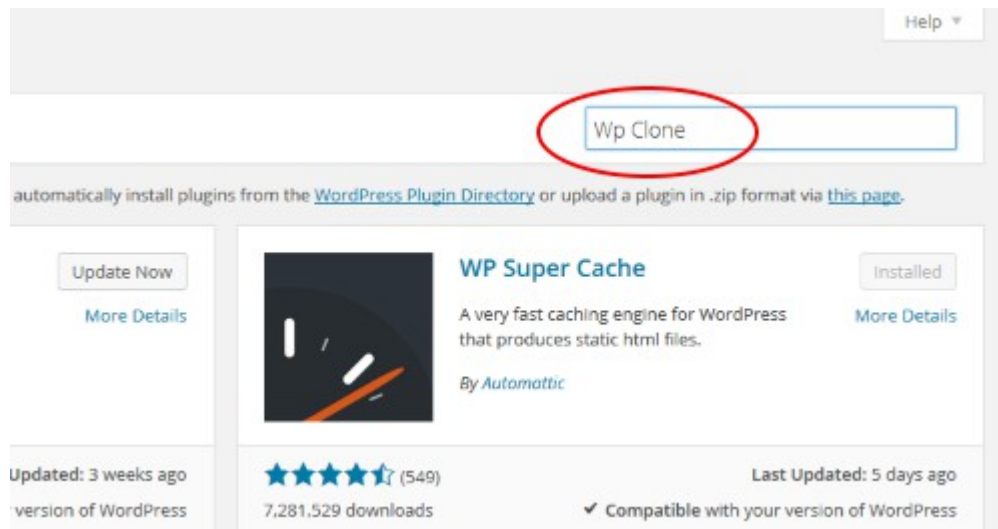

You need to install a plugin named "Wp Clone" to clone my site. So log into your newly installed word press site's dashboard and click on "plugin" and "Add new" from the left panel.

# DFY Solo Profit Funnel

At the Add Plugin page search box, type “Wp Clone” and hit enter.

You'll be taken to Wp Clone plugin page, click on install and then at the next page on “Activate”. You can see Wp Clone plugin at the left panel of your dashboard. Click on and it will take you to a page (pic below). Select “Restore from URL” option and paste following URL: **[http://dfysoloprofitfunnel.com/wp-content/uploads/wp-clone/wpclone\\_backup\\_10th\\_Apr\\_2015\\_05-01AM\\_DFY\\_Bks1QRy0pT.zip](http://dfysoloprofitfunnel.com/wp-content/uploads/wp-clone/wpclone_backup_10th_Apr_2015_05-01AM_DFY_Bks1QRy0pT.zip)**

You may need to change your permalink setting. Click on “Permalink” from your dashboard left panel. Select custom structure and paste this: `/%postname%/` and click on “save” button bellow.

Congratulations! You just have successfully cloned my solo profit funnel pages!

But wait! There is one more thing to do! You don't want to send all the money from your sale to my paypal account, do you? You need to generate your own paypal button from your paypal account. If you do not know how to do this, go to YouTube and type “How To Create A PayPal Payment Button” in the search box and you'll get many video walk-through. You also have to change the download link at your “thank you” page (solooto2). Upload your “Resources”Zipped folder to your domain and link it with your page!

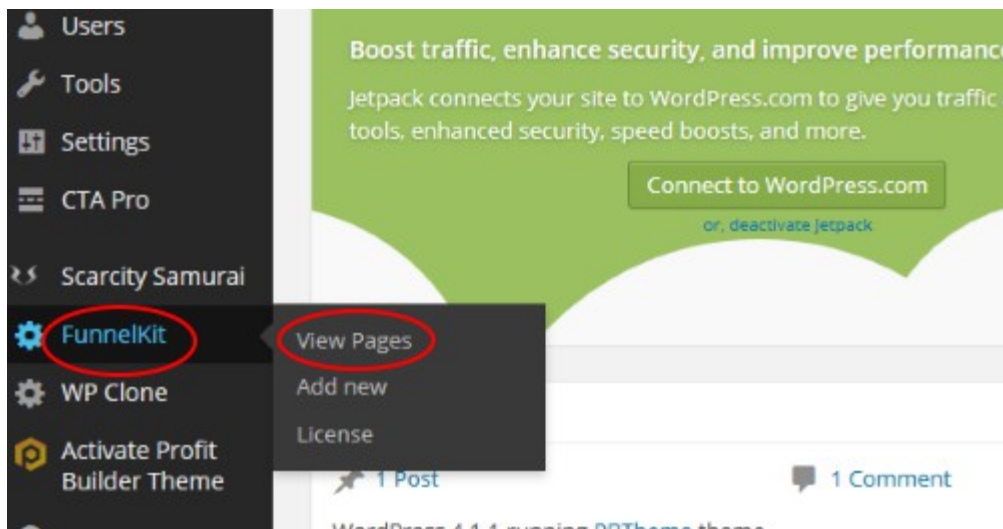

## c. Inserting Paypal Button Code To Your Page

After you generated your button code, you need to insert it to the proper place to your funnel page. I have designed the funnel pages using a plugin named “FunnelKit” and I have a developer's license.

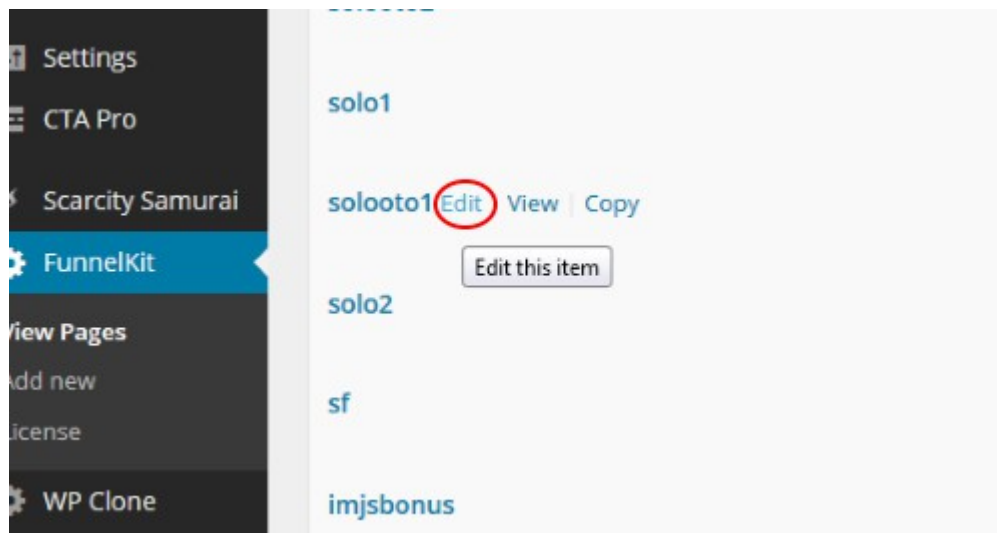

So head over to your word press dashboard and click on “FunnelKit” and “view pages” from the left panel.

# DFY Solo Profit Funnel

You'll see all the pages of your funnel here. Take your mouse to “solooto1” page and click on “edit”

# DFY Solo Profit Funnel

You do not have to touch anything unless you know what are you doing! Now click on "Step3" and you'll see a box with some code. There are two set of codes. One is YouTube video embed code and under it the paypal button code. You need to keep the YouTube code as it is and delete anything under it.

Bellow is the YouTube code you do not have to delete:

```
<iframe width="700" height="400" src="https://www.youtube.com/embed/R-  
NngBiNLtI?rel=0&controls=0 ?rel=0&autoplay=1" frameborder="0"  
allowfullscreen></iframe><br/><br/..>
```

Delete anything under it and then paste your paypal pay button code you have generated. Do not forget to save the page! And your are done!

To insert your name or photo in the page, click on funnelkit-> View pages then select the page you want to edit. Click on "Edit" and go to Sept 4. Here click on the gear icon of the section you want to insert your name or image.

# DFY Solo Profit Funnel

## 5. Traffic

After you have uploaded all the files to your server and checked everything is alright. You need to send traffic, the most important task of this business model. But we are going to send traffic using a specific method. Your funnel name is "Solo Profit Funnel," and it is designed keeping "solo ad purchase" in mind as a traffic source. Solo ad purchase needs investments upfront, but you can recover your investment quickly and make profits with this funnel. So solo ad purchase for traffic is our plan A.

We also included a "Plan B," keeping in mind that some of you may not be able to invest upfront. Our plan B is a free traffic source you could use. You can switch to plan A after making few bucks with plan B.

### SoloAds: Plan A

Solo ads are a popular way for Internet marketers to get their messages out to a large numbers of targeted prospects for a relatively low cost. The basic idea is to find someone who owns a large list of subscribers which is closely related to your niche. It's one of the quickest methods to drive traffic to your offer.

# DFY Solo Profit Funnel

## How To Find Solo Ad Sellers, Who Will Get You Sales

You can find solo ad vendors by searching in search engines. You'll find a lot and a lot of them!

Now you have to be very careful choosing and purchasing solo ads so that you don't lose your money. The key to being successful with your solo ad purchases is to do proper research.

There are a lot of solo ad sellers out there who are just trying to scam you by sending bot traffic, and there are also a lot of sellers who will only send you traffic that never buys anything.

There is a Facebook group where people will leave honest testimonials for people they have purchased solo ads from before. Here's the link:

<https://www.facebook.com/groups/SoloAdsTestimonials>

Once you get accepted in the group, you can browse through it to find sellers who have been getting sales.

I can't even begin to tell you how many times I purchased a solo ad and the

# DFY Solo Profit Funnel

person either sent fake traffic or would only send traffic that is not interested in purchasing anything.

Even though there are a lot of solo ad sellers out there you can test, I tend to stick to these 3. Every time I order from them, they provide me with great results.

So, if you purchase from these three, you may get results as I'm getting from them. Here are they:

Manidip Chakraborty: <https://www.facebook.com/manidipc>

Anoop chawla: <https://www.facebook.com/anoopchawla17>

Kresimir Klukovic: <https://www.facebook.com/kklukovic>

## Safe Lists: Plan B

These are sites that allow you to email hundreds or thousands of people at a time (exactly like a solo ad) with your offer – but not only that – you can also get free banner ad space, free traffic links and other free traffic options!

Normally, there's a monthly fee that allows you to mail a certain amount of people per month and the prices range from a few dollars a month to a few hundred dollars a month, depending on how many people you want to email...

# DFY Solo Profit Funnel

But most Safe List sites will give you a free coupon on sign up, so you can try out their traffic... This can give you a variety of traffic options, depending on the coupon and the site, but typically it is a free solo ad, a free banner space, a free traffic link or something similar.

## Where To Find Safe Lists Site

Luckily I found a blog where there are 200 safe lists site being lined up. I am sharing the link here.

Sign up for one and take a look around. After you'll sign up, you'll be redirected to a number of upsells – just click 'No Thanks' don't spend any money here.

Each site works differently, but it's pretty easy to figure out with their instructions. Sign-up for all the 200 sites and use your FREE quota. Doing so you'll make enough money from your funnel to invest in the plan A!

# DFY Solo Profit Funnel

## 6. Conclusion

The money making system in DFY Solo Profit Funnel is really simple. Apart from sending the traffic to your landing page, everything is done for you. All you have to do is to set up the system correctly.

The methods of traffic I laid out can generate enough traffic to your landing page. All you have to do is follow the traffic methods and implement the steps.

Well, with all those steps to complete, it may seem a bit overwhelming at first.

If you start taking action with one step at a time, you will be absolutely okay!

## 7. Resources

Here are some resources that will come handy, and they go with DFY Solo Profit Funnel very well. Let me start with:

### *1. Setup service:*

# DFY Solo Profit Funnel

Set up service includes, editing and uploading all the files of DFY Solo Profit Funnel. Only 48 hours to set up everything at your hosting. But You have to be ready to allow me 2-5 days in case of order rush! Click on the image above if you require my set up service.

## 2. [Solo Funnel Breakthrough](#) (\$7)

Your DFY Solo Profit Funnel is made based on this \$7 report of Bryan Harkins. I strongly recommend you purchase [Solo Funnel Breakthrough](#) Report with only \$7. It will give you greater understanding of the funnel and the complete system. That's all guys!
