1. What is Hotel Marketing?

Every business needs marketing these days and Hotel Marketing is a booming industry. It is about selling specific hotels services to people all over the world. This is usually done by advertising the hotel online, in different magazines, newspapers travel agencies, attending trade fairs, exhibitions. There are so many people who like traveling, in the meanwhile, there are many hotel booking websites out there, and there is a big opportunity for you to make some money. I mean you can make a lot of money and become a top affiliate by promoting CPA hotel offers. This is a booming field. At this moment, there are main methods about promoting CPA hotel offers, in this guide I will show them to you one by one and focus on the third method which is making me money.

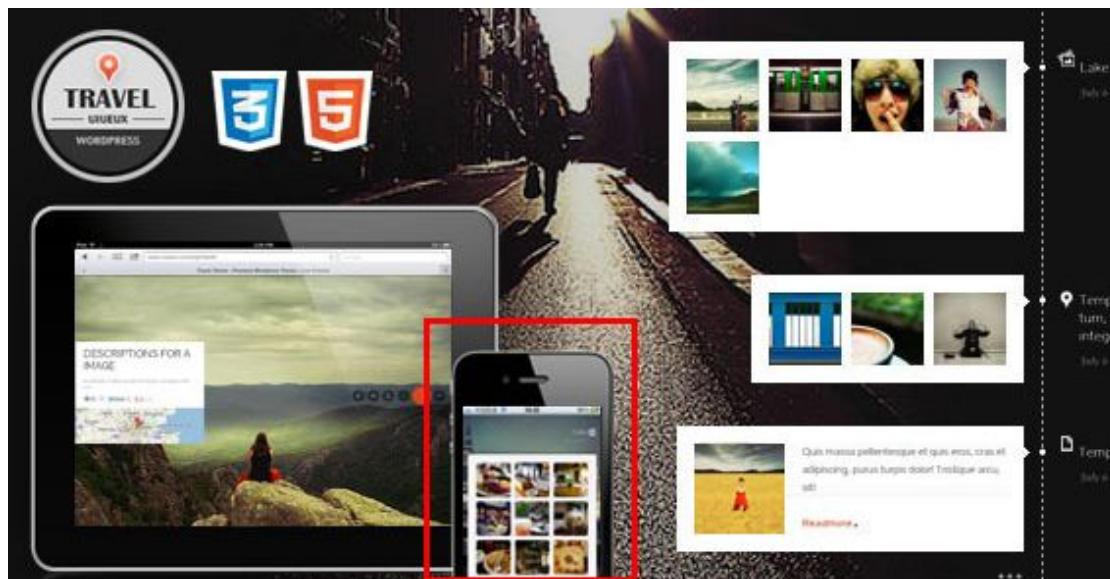

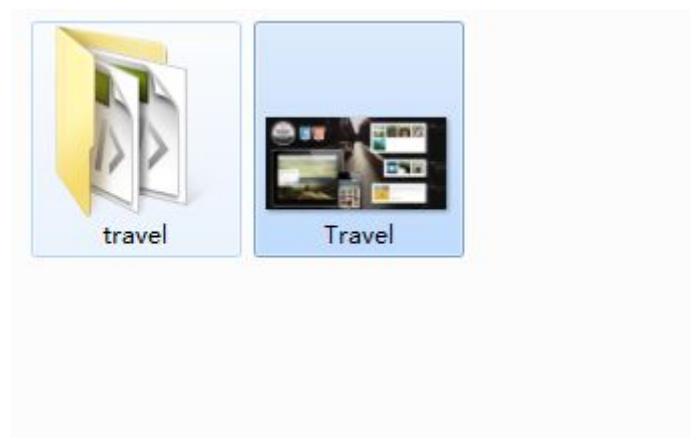

2. Money Making Methods:

2.1 Method 1-Build Hotel Website and SEO

This method is traditional, the pros and cons are obvious, it needs a lot of hard work and time, but it is a long-term business and you don't need to spend money on advertising. There are a lot of people are promoting CPA hotel offers with their own websites, I know a guy who makes hundreds

of dollars per month by publishing several posts to his website every day.

The beginning is hard but after your system is on the track you can make some easy money. If you are interested in this method, just set up a WordPress website and use this Travel theme (It is mobile optimized)

You can get it on my blog for free.

To see the result as soon as possible, you can ask me for a secret back

link builder software, it is amazing.

2.2 Method 2 CPA Hotel offer + Mobile

Yeah, mobile is hot, by 2020, worldwide smartphone subscriptions are projected to top 6.1 billion. According to travel industry research authority Phocuswright, now that travel companies are catching up, with multiple apps and iterations under their belts, it's time for them to move beyond the basics. You can find a lot of CPA hotel offers in all kinds of CPA networks because the travel companies are promoting their own travel apps.

Let's Check some of them.

Mobile Traffic Source:

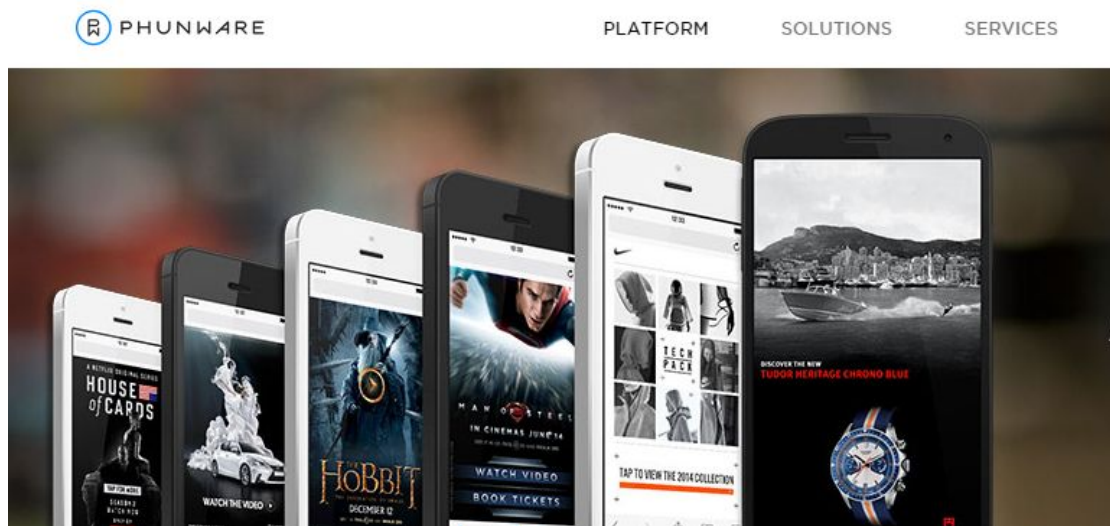

Let's check some mobile traffic sources,

AirPush

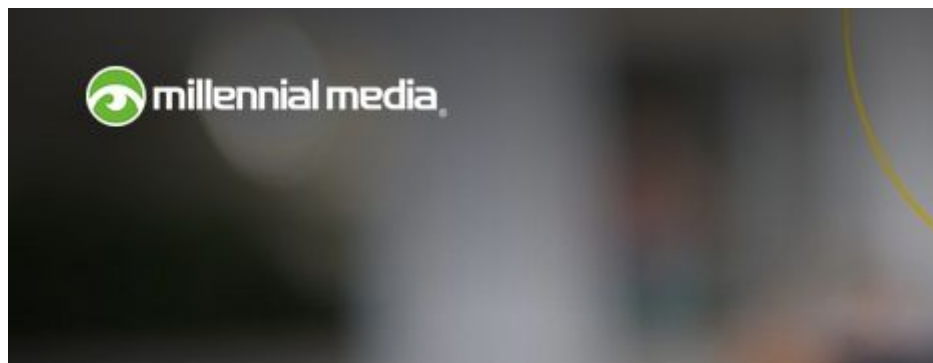

AirPush is the 2nd largest ad network for Android developers with a global network of over 40,000 apps and 2,000 advertisers. The biggest advantage of Airpush is that it delivers your ads message in the notification tray of the smart phones and not within the app. Hence the message can be more easily viewed, which increases customer engagement to a considerable extent.

Phunware

This mobile traffic source boasts several parameters and various customizations available. It is also an RTB enabled self-serve market Place.

Millennial Media

Jumtap has been acquired by one of the biggest players in the mobile advertising space – Millennial Media. Consequently, you can now look forward to more precise customer targeting based on behavioral, contextual, location and several other parameters. Millennial Media is one of the market leaders in providing breakthrough innovative creatives for mobile ad campaigns.

Inmobi

InMobi serves billions of ads daily. With 350+ data scientists, engineers and analysts spread across the globe, InMobi continues to lead the industry in building architecturally superior mobile-first platforms.

Leadbolt

Leadbolt is a mobile advertising network which was founded in 2010. Originally founded as a web focused CPA Network in the niche area of Content Locking, in 2011 it launched its mobile advertising platform. As of 2014, Leadbolt serves 5 billion ads a month across 65000 apps in 150

Countries.

You can make some money with these traffic sources by promoting CPA hotel offers, but you need to setup tracking system, test and optimize until you get a profitable campaign, Yes, some affiliates are making big money with this model but it is not that easy for newbie because of a lot of things to do and a lot of things to optimize.

I don't want to spend a lot of time on this, I just want to **tell you my Newbie Friendly method which can make you money immediately!**
Easy to setup, easy to scale up, 0 investment, NO Risk!

Let's get straight into this method!

2.3 Method 3 –Mr. Right's Genius method

Traffic Source: Bing ads

Why bing ads?

Lower CPC – You get more for your dollar. I have found that we get clicks 2-3 times cheaper than we would have on other networks. You can make do with less conversion and still be profitable or you can get higher profit margins.

Less competition – I really like that Bing Ads currently is almost as Google Adwords in the early days. It seems in the early days as rumor has it that people could easily upload profitable campaigns because of the lower CPC and lower competition. Less competition means you don't need to adjust your bids as much and you can get more traffic.

Quality Traffic – Bing Ads network isn't your typical PPC network. The traffic is comparable in quality to what we've seen with Facebook ads (even better actually) and certainly many others (Cannot compare with Google Adwords due to the high CPC).

Great Support – It is worth noting that Bing Ads also has very good training material and intuitive ad network platform (they have many features from Google Adwords too)

Another important factor is that Bing ads provide free Advertising credits to people!

This point is super awesome, that means you can get started with 0 investment, you don't worry about losing money or burning money on advertising.

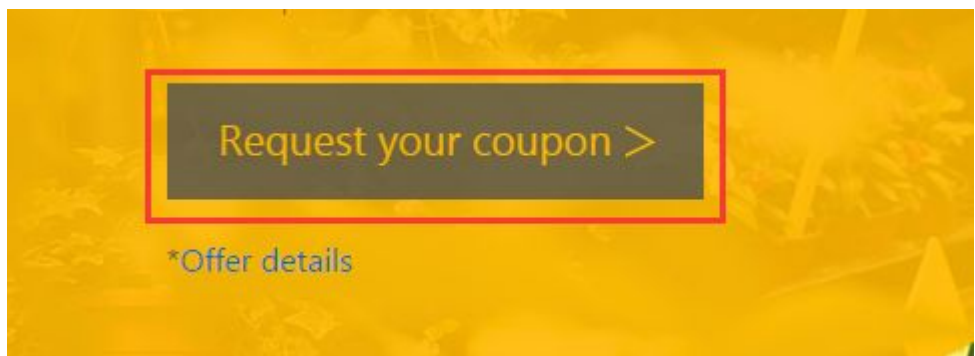

You can get as many bing ads coupons as you can use your own, your father, your mother, your friends, your relatives' information to apply

Bing ads Coupon. Let's get started!

Get bing ads free advertising credits directly!
