Thank you for buying this EBook, which is not just another nicely written book with fake tips and tricks but in reality this EBook will share my seven years of experience with YouTube Marketing.

Now the biggest question that comes in mind is, why in the world of internet marketing I have only gone for YouTube marketing,

Well reasons are quite obvious, I think I may not waste your time and my time in explaining why YouTube,

### **Few facts need to be get straight these are**

YouTube is ranked on 3rd Position in global world when it comes to general public favorite website.

YouTube is world 2nd largest search engine with 25% traffic from United States of America and if you are not new to internet marketing, you would have a great idea,

What U.S.A traffic really means?

If I start giving you reasons like this, even the most obvious reasons. List would be so long that I would get tired, days would gone by and still I be writing some simple yet powerful reasons of why YouTube Marketing is the best.

## YouTube and Affiliate Marketing

First PART of Our Course YouTube and Affiliate Marketing and Listen please!!

I do not play around, I don't fill up the report with useless screenshots and tiny little details on how to sign up for Gmail and YouTube lolx ..

I need you guys to at least do something and take some action, because I'm basically giving you guys my bread and butter!

**So let's get straight to it!**

Chances are that the way I implement the methods are totally different from what most people are doing.

**So i was talking about YouTube..**

YouTube is a bigger search engine and we will upload our videos to YouTube about affiliate products and we will be adding our affiliate links in the description of videos.

**Sounds basic right?**

But there is a right way to do this and there is a wrong way...

After working for a couple of years and getting experience about videos on YouTube, I have come to the conclusion that your success in this field is dependent on the quality not quantity. The quality work is appreciated in every department.

The value and worth of a video gets enhanced by the content in it. If the content is worthy of appreciation then the number of likes on that video will boost up by a significant number.

# YouTube Cash On Demand!

## YouTube and Affiliate Marketing

A recommendation for you is that in order to get the maximum appraisal then you should check out the GRAVITY of your Niche. If you don't have niche with millions of views then please it.

**No need to waste time on it further.**

Your views may contradict from mine, but it is an exceptional rule that leads to success, so I will always enforce my followers to find a good niche first. Make it as the basic principle of your interest.

And finding a HOT NICHE is SUPER EASY ON YOUTUBE! You know why? Because YouTube is a huge search engine...

And what do search engines have? Massive traffic, so this means if a niche is huge on google, it probably is just as huge on YouTube.

So what I discovered is that YouTube works best in popular and Competitive niches...

That's why I only promote WEIGHTLOSS EBOOKS and MAKE MONEY ONLINE EBOOKS on YouTube...

So basically what I am saying is that if the niche is not HUGE...like weight loss, make money, cooking etc... then stop here and do something else because you will be fighting for small traffic amounts not worth fighting for...

GO WHERE THE MASSIVE TRAFFIC IS AND YOU WILL GET YOU'RE SHARE EASILY! (In this case more views/clicks on your link)

# YouTube Cash On Demand!

## YouTube and Affiliate Marketing

So as I said...

WEIGHT LOSS EBOOKS AND MAKE MONEY ONLINE EBOOKS Work the absolute best for me and there is so much traffic in these Categories. Not just on YouTube but on the internet in general.

You can try and search for your own high converting niche... be my guest,

I'm all for individuality and thinking outside of the box, but if you want to make that fast buck by doing what is proven to work  
For me then just do as I say and test niches along the way as you progress.

**Go to [clickbank.com](http://clickbank.com) and find yourself a good diet product.**

Usually I don't tend to go with the popular CB products because they are seen all over the place. People are banner blind to these products so to speak I usually find those low key, low rising, just released CB products that no one promotes convert way better.

Now be aware, not all of them are high quality when it comes to the sales page so you still have to inspect the offer and its sales page.

Be sure to read the sales page or sales video to see if you PERSONALLY would love to purchase this product.

# YouTube Cash On Demand!

## YouTube and Affiliate Marketing

Place yourself in the shoes of the visitor and see if you are persuaded to purchase the product in question.

(Massive tip: Products that have VIDEO Intro Of Product convert the ABSOLUTE BEST on YouTube traffic. Its very logic because they are redirected from 1 video to another video sales letter!!!)

\*Little warning, don't always go for the high gravity (most selling) CB products...

Most of them got awful conversion rates for some strange reason.\*

Thus, when you have completed the first part, you are now closer to the victory. The next step requires your complete attention. You have selected the product niche, now come to plan for video making.

Now the ball is in your court, so prepare your video as you like.

If you are a naïve and you are not the spendthrift then I can suggest you a simple solution. On your webpage, open a new tab and go to Product's sale page. This is an ideal case for you so you can download the video from here.

Most of the product, i.e. approximately 80% of the products have their own videos on sale page. So you would have to download the video and then you can upload at YouTube channel.

While uploading your video you should follow these uploading rules to rank higher your video in YouTube and google

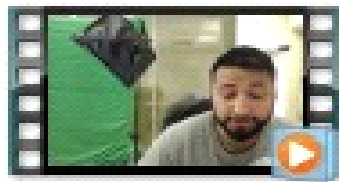

Let us take an example of it. Consider a product of Warrior plus "FB ads Booster" and now our main aim is to Promote FB ads Booster through widely used media, "YouTube".

You would be a bit shocked by looking at such a stack of keywords  
And their corresponding names, but it is a fact that they work like magic words.  
The only task that you are supposed to do is to change the name of the product  
in keyword spider.

5. Now use any five of the keywords in your video as tags. No need to pile up  
your video with a bundle of tags. Five to Eight will be appropriate.

6. Now come the thumbnail. You can use any one of your own  
Choice but it looks better if you opt the custom thumbnail.

7. Make the video unlisted.

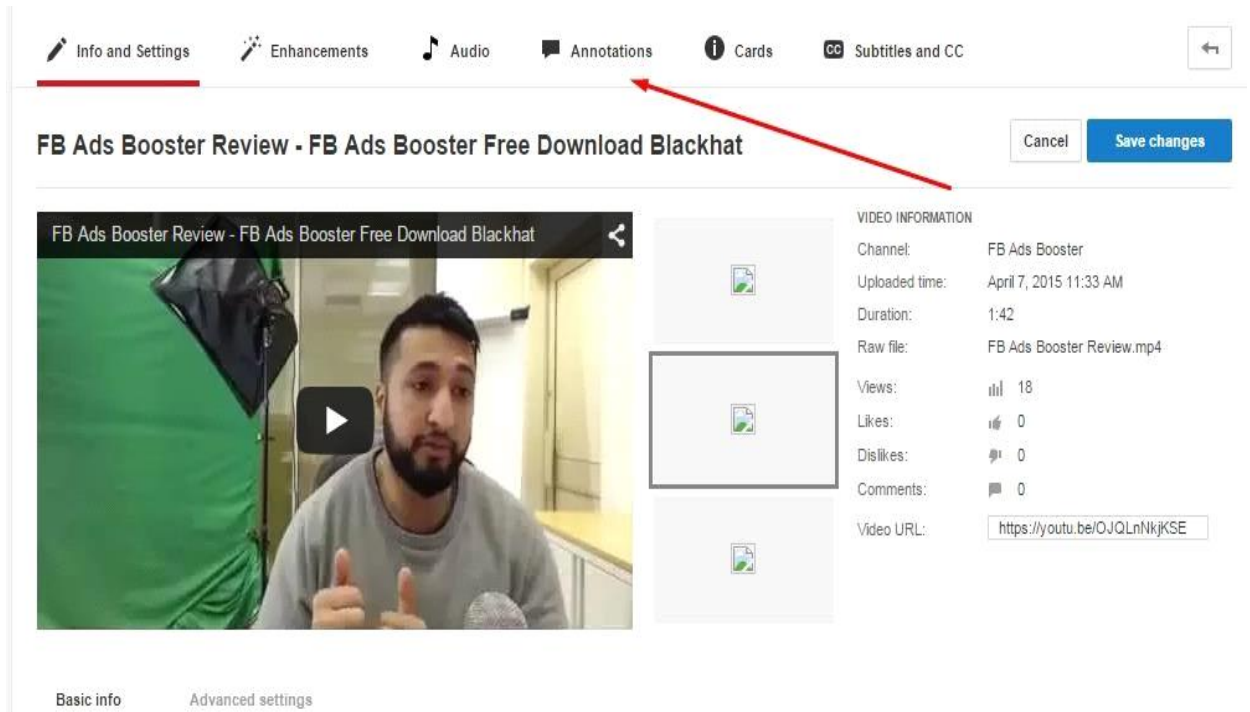

The screenshot shows the YouTube video upload interface. At the top, the video title is "FB Ads Booster Review - FB Ads Booster Free Download Blackhat". To the right of the title is a dropdown menu set to "Unlisted", with a red arrow pointing to it. Below the title is a text area containing the video description: "FB Ads Booster Review http://goo.gl/qttM4C FB Ads Booster, FB Ads Booster ebook, FB Ads Booster Bonus, FB Ads Booster Review, reviews on FB Ads Booster, FB Ads Booster reviews, custom reviews on the FB Ads Booster boost". Below the description is a box for tags, containing three tags: "FB Ads Booster Review", "FB Ads Booster", and "FB Ads Booster Free D...". Below the tags is a section for "Suggested tags" with several buttons: "+ Review (Media Genre)", "+ Download (Website Category)", "+ Cyber (Film)", "+ Film (Media Genre)", "+ Facebook (Award-Winning Work)", "+ Commercial", "+ Spot", and "+ Cards". To the right of the "Unlisted" dropdown is a button that says "+ Add to playlist".

The annotations are quite important for your video. So they can be added by clicking on the video manager and then on tab of annotations.

Subtitles also add a grace to your video so never forget to add your subtitles.

It will create a comfort for people from different countries that they could Understand the context of your video. Subtitles can be added from Video Manager Tab. You can either write these subtitles or you can ask someone to do this job.

9. To allow everyone to access your video, make your video public.

Now index your video in google by adding your video url at google webmaster tool.

<https://www.google.com/webmasters/tools/submit-url>

It will add the URL of your video in google.

You will notice that your video will get a good ranking just because of the procedure that you have followed in the above steps. Your video will get good ranking within a couple of minutes.

So, the crux of the matter is that you can easily download a video and then later on you can upload it by altering a few things. If you take fifteen minutes for a single video, then you can utilize your time for more videos and they would be highly ranked.

No need to stop uploading videos even if you have worked really hard. Keep on uploading them till you start earning 100\$ or even more amount a day. This should be the minimum goal set by you.

## YouTube and Affiliate Marketing

in-fact we will promote it like someone is finding a game on YouTube and we will give him our pay per install link to download the game he is finding .. when he will install it, we will get paid and i know it is not any game he was finding on YouTube but don't worry it is also not a virus ... it is just an adware (ads showing tool) which will show ads in his browser and that's it .. no harm no risk no malware :)

and we can change our pay per install link with same game name which he was finding :) so the chances are high that he will definitely install it ;)

Here is a tutorial about how to make your own pay per install link .

Now before opening this link make a little changing in url .. change the name of your eBook, game, software or whatever name you are going to use to promote this link ..

you can see {REQUEST\_STRING} written in all pay per install links ..

and now we have to change {REQUEST\_STRING} with our desired name which we are using to promote our links ..

**here is an example ..**

Most interesting part of this method is easy to use procedure, as a visitor clicks on the offer link , your link will begin downloading automatically

## YouTube and Affiliate Marketing

Now we know how to create our pay per install links ?

Now moving to the next step.

### **HOW to promote these links through YouTube. ?**

The basic point is to think about a product which is famous among people and they are in need of it. They want to have it at any cost. They will definitely look to download that product for free, if available.

Now you have a chance to find that kind of product.  
I hope you have learnt what I am trying to convey to you.

Let us take an example of GTA V ? What is it so famous about it? You will come to know that Gamers are addict of it, they want to Have it and they struggle enough to find a link where they could have it for free.

Are you worried about finding GTA V free of cost? Seriously?  
Oh please! Don't do that. You don't need to do that.  
You should just know the product name and its corresponding keyword that will excite every other user who will be in search of it.

**Let us take another example.** People have uploaded fake video regarding "hacking of fb in seconds" ? Can any software do that ?

**No! Certainly not.**

so here is what we will promote now for example

**"how to hack Facebook account"**

and now we need a video where we will show this Facebook hacking tool in action ..

and we don't need to create this video :p

we will find this vide on YouTube and will upload it on our channel ..

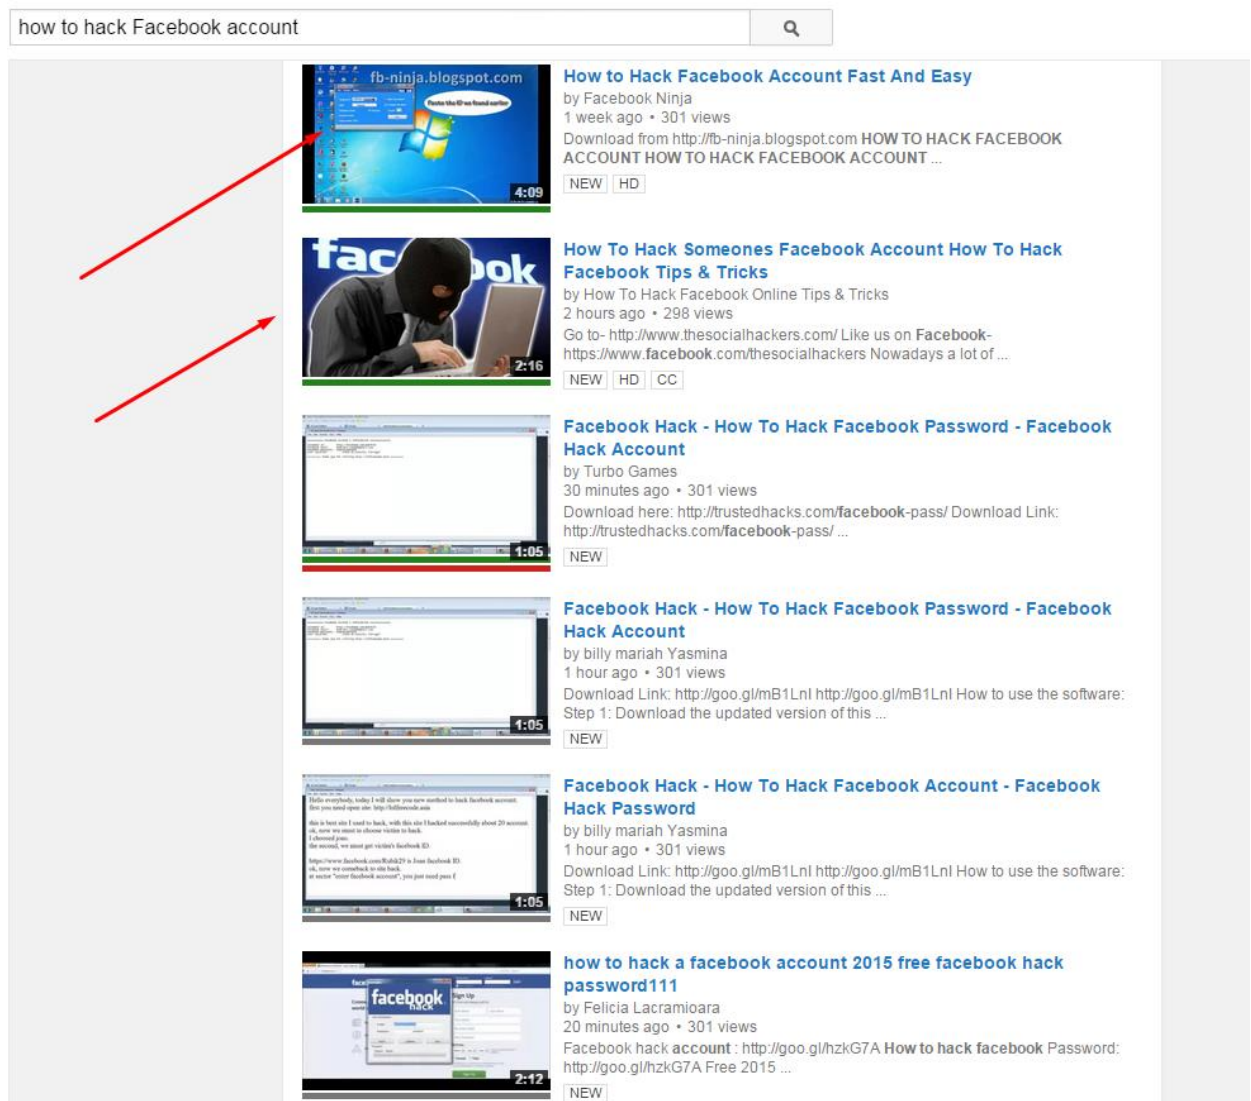

seems simple ?

okay let me show you examples

But we can't get more than 301 views with this software :(

The real issue is that whenever your video gets more than 301 views quickly, it stops counting more views.
