## HOW TO WRITE EMAILS THAT WIN LAUNCH COMPETITIONS

Included below is the EXACT emails I used to win my latest product launch competition – The Launch Bible 2.0.

These are the emails which made me a grand total of \$8,320.24 in commissions and bonuses in just 6 days.

You cannot copy these emails word for word (the rights belong to me, so be warned!) but you can use them for inspiration and to model your own emails around.

Follow the format and the strategy laid out in the blog post and you'll increase your email open and click rates and most importantly increase your affiliate commission.

You might not win the contests straight away, especially with a small list or as a newbie, but you'll certainly see an increase in sales if done correctly.

Maybe I'm mad to be teaching this because before I know it you might just be the one taking my #1 spot in the competition.

See you on the leader board. ;)

## THE RESULTS EMAIL:

### Headline: *How To Generate \$2K In 4 Days From A Simple PDF*

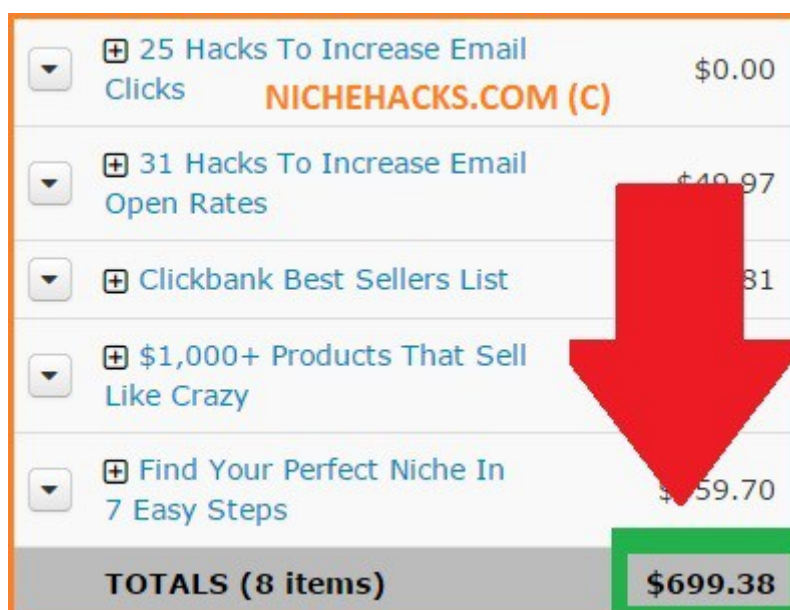

Hey,

*I want to tell you a little story that helped me, and will help you, **generate some well deserved extra income**, enable images to see the screenshots please...*

*In September last year I added 5 “info products” (simple PDFs containing information) to the site for sale. I'd spent all of August working on them.*

*In the first month they generated \$699.38 which is less than \$150 a product per month. \$700 additional income every month is nothing to be sniffed at but it's not life changing money either, I think you'll agree?*

*Fast forward to October last year and I released my product, 65 High Paying Affiliate Programs (currently not on sale), which in the first 4 days alone made \$2,000 and counting (without the help of any affiliates)*

*Again not life changing money **but \$2K is enough to make anyone happy**, right?*

*It wasn't that this product sold because it was 'better' than the rest (it was actually the most simple of them all...a list of affiliate offers) but instead of just adding it to the blog and sending out a simple email I followed **a proven launch strategy that increases sales** by a monumental amount.*

*And it's something anyone can do even if they don't yet have an email list or their own audience or any prior connections with affiliates*

*In-fact NicheHacks Tribe member Irfran used this very strategy to build a small list of 540 "freebie seekers" in a "weird niche" far away from the IM niche.*

*Then he launched his product using the proven launch strategy and turned 104 of those 500 "freebie seekers" into paying customers, his product converting at 19.26% (unheard of in the IM niche) and generating him \$514.80 in easy income.*

*He just followed the step by step instructions that are revealed on the link below....*

**>> [How to generate \\$2K in 4 days from a simple PDF.](#)**

Product	Visits	Sales	Conversion	\$/Vis	\$/Sale	Total
No Affiliates	540	104	19.26%	\$0.95	\$4.95	\$514.80
Gimme - Better Love with Better Mail	102	104	19.26%	\$0.95	\$4.95	\$514.80

**Why am I telling you all this?**

Well I want to show you how when done correctly creating and launching simple info products (these are just some text typed into a Word document and turned into a PDF...you can do that, right?) can make you **a serious amount of money in a short period of time.**

Now \$2K probably isn't going to change your life but maybe it will help you deal with this months mortgage and car payments, allow you a vacation, to put some money away for your retirement, fund the kids college education or weddings...or whatever you need the cash for.

If you'd like to master this simple little system of selling PDFs for insane profits then click on the link below now...

>> [How to generate \\$2K in 4 days from a simple PDF.](#)

**So anyway here's the bit you need to pay attention to....**

As I said above what I did differently with the last product was follow a proven and simple formula to create and launch simple products that make people whip out their credit cards and start buying the second you announce them.

To get this formula I had to reverse engineer **the same system used by a 6 figure launch specialist** who does this each and every month.

It took a lot of time and effort and I had to spend money to do it – this information wasn't publicly available at the time.

Wasn't available until now anyway....

Today the 6 figure product creation and launch blueprint has been revealed to the world but it's available for a limited time only.

If you want to copy the step by step formula to creating and launching your own highly profitable yet stupidly simple digital products I recommend you click the link below immediately before it's too late..

## FAQ EMAIL

### **Headline: You Asked. I Answered**

Hey,

*You'll no doubt remember I emailed you in the past couple of days about the "The Launch Bible" the step by step blueprint I used to make \$2,007.45 in 4 days from a simple PDF.*

*See here for more details if you missed it...*

>> <http://nichehacks.com/make-2k-in-4-days>

*Well I received a few questions about from tribe members like yourself that I thought I'd answer for everyone...*

**Q: Can these products be created and launched in ANY niche?**

A: YES!

*Students of this course are in niches ranging from IM to salsa to forex to hypnosis.*

*And just look at Clickbank digital products in EVERY niche under the sun from tattoos to solar power to comics to genital warts. If there's a niche you can make info-products for it.*

*NicheHacks Tribe member Irfan, as a newbie, sold 100 copies of his first simple PDF info-product and made \$514.80, in an unusual niche far away from internet marketing (see screenshot at the bottom of the email)*

**Q: Is this product really responsible for making people 5, 6, and 7 figures as the price very low?**

A: Yes it is!

*The low price is a clever marketing tactic to get you into their sales funnel. It's a common tactic. Release a low priced product to get you interested.*

*They'll make little or no money on that front end sale but if you are impressed with it then you'll buy products further down the line, clever stuff!*

*Don't be fooled by the low price. This is a proven multi-million dollar marketing technique used by every big product creator.*

***Q: Is EVERYTHING you need included in the product or do I have to buy additional products for this to work?***

*A: Yes!*

*You get everything you need on how to create, launch, and profit from digital products*

*And if that's not enough I'm throwing in a list of the most profitable 115 info-product niches into the bargain (available after you invest inside the JVZoo bonus section)*

*As well as 4 other bonuses including a NicheHacks exclusive given to us directly from Alex Jeffrey's, the crazy Welsh man behind this product launch strategy.*

*Remember more info is available when you click this link...*

*>> <http://nichehacks.com/make-2k-in-4-days>*

***Q: I've no existing audience or list, is that OK?***

*A: Yes, totally fine!*

*It's designed for newbies and will help you build your audience and list faster than you can in any other way through using affiliates to promote your product and make you sales (all explained how to do that in the product)*

***Q: Can a newbie who's never made a product before really create and launch one in a short period of time?***

*A: Yes*

*If you're willing to put just a little work in an hour or two a day will easily be enough.*

*Simply buying and never implementing or not taking action won't achieve this but a product could be researched, created and ready to launch in a week if you're quick about it.*

*How long would it take you to write down some stuff into Word and convert into a PDF file?*

***Q: I don't have a list or an audience, can I do this?***

*A: YES, this is perfect for you.*

*It's actually designed to BUILD your list. These simple PDF products you're about to create are going to be promoted by affiliates who'll send you their subscribers, make sales for you, and build your list whilst you profit.*

***Q: I'm not very technical, can I manage this?***

*A: Yes, totally.*

*If you can type into Word you can do this. That's all this is. Typing a document and turning into a PDF file (that's a 1 click thing built into Word or if it somehow, unlikely, proves too difficult can be done on Fiverr for \$5)*

*>> <http://nichehacks.com/make-2k-in-4-days>*

***Q: Is this the real deal as it seems too good to be true?***

*A: Yes, it's all totally legit.*

*You get the exact launch blueprint used month after month by this 7 figure marketer. The same checklist people are using to do 5 and 6 figure launches.*

*The same strategy I used to make \$2K in 4 days and Irfan used to make \$514.80 from his first product launch even though he was a complete newbie. (see screenshots at the bottom of the email)*

*Alex is thought to have had more success stories than any other marketer and he can prove it too. Big name marketers who studied under him are willing to vouch for him - just visit his sales pages, his Facebook group or any of the IM forums.*

*Every day a new student in his FB group posts about the success they are having (you'll get access to this after purchasing, I'll see you on the inside)*

*I have used countless of his products and strategies to profit myself - Remember from \$150 a month to over \$2K in 4 days using this strategy,*

**Q: Is there any proof this works?**

A: Yes, there sure is.

*Students of Alex include well known and respected marketers, many of which you'll know including - Dean Holland, Joey Xoto, Mark Millburn, Amber Jalink and more.*

*These are real people with real businesses, some of these guys have went on to be millionaires - not without hard work of course but it shows what is possible.*

*Irfan the NicheHacks tribe member shared with us in the Private Mastermind group how he sold 100 copies, of his first ever product, making him \$514.80 profit even as a newbie (screenshot at bottom of email)*

*Then the dozens of students in Alex's FB group who day in day out and sharing their success stories like Lloyd Price who made his first million (screenshot at bottom of email)*

*If you're still not convinced that digital products can be this profitable just look at Clickbank*

*They've been around longer than Google, pay over a million dollars in commission EVERY month, and report to have made over 100,000 wealthy and created another 1,000 millionaires through selling via the CB marketplace.*

*This is a big and very real business and there's room for everyone so if you're ready to give it a try then click the link below now...*

>> <http://nichehacks.com/make-2k-in-4-days>

**Q: Are there any bonuses available with this?**

A: YES, tons and all great quality.

Not only has Alex packed out the members area with bonus content including PDFs, videos, audio files, transcripts, documentaries, checklists and cheat sheets, sales & landing page templates, access to the Facebook Mastermind group and more but....

...I'm also offering 5 exclusive bonuses from my own product selection and one personally created by Alex for us as NicheHacks tribe members.

### Headline: 5 Things You Should Never Do When Launching A Digital Product

## 5 THINGS YOU SHOULD NEVER DO WHEN LAUNCHING A DIGITAL PRODUCT

>> [LAUNCH PROFITABLE DIGITAL PRODUCTS NOW.](#)

*Most digital products / info-products flop. Just look at the stats on WarriorPlus or JVZOO, the majority fail to sell even 10 copies.*

*Yet when done right these stupidly simple digital products (I mean an info-product is just a PDF FFS!) can earn tens or even hundreds of thousands of dollars just in the launch period.*

*Clickbank has made over 1,000 people millionaires through selling digital products on their platform.*

*JVZoo has 5, 6, and 7 figure launches every week with the top vendors doing this month in and month out.*

*So why is it that only the small minority doing the big 1,000+ sales launches and making the 5-7 figure pay days whilst others can't even sell 10 worthless copies?*

*Well there's a very good reason for that which is revealed at the bottom of this email so keep reading....*

*First here's a quick guide to avoiding the 5 biggest mistakes new digital product creators make:*

*#1: Don't create a product without testing if there's a demand first. Your product has to be solving a problem people in your niche have otherwise no*

*one's going to buy it no matter how cool or great you think it is*

*(there's a little known way to test if your product will sell BEFORE you waste time or money on it)*

*#2: Don't simply add to the marketplace, not tell anyone it's on sale and expect it will sell. I see this on the Warrior Forum all the time, people assume as that site has lots of traffic they will naturally get sales but it doesn't work like that. 99.9% of sales are driven by affiliates*

*(there's a much better way of letting people know about your product that will encourage them to buy your product, thank you for it, and put money in your pocket)*

*#3: Don't avoid connecting and networking with affiliates and JV partners because you "don't know anyone" or assume they won't be interested. These are the lifeblood of any successful launch and without them you'll be that guy on the WF struggling to make even 10 sales to break even*

*(there's a secret tool you can use AND a sneaky Google search trick to find hundreds of affiliates in ANY niche who are crying out for products to promote).*

*#4: Don't make the mistake of thinking that all you need is 1 front end product that's just the beginning. You need upsells, one time offers, and other programs on the back end to further profit from your traffic and make things more appealing to affiliates*

*(there's a handy guide that shows you how to turn your 1 front end product into a series of profitable upsells, OTOs and more)*

*#5: Don't make the same mistake I did with my first few info-products of simply creating them, adding them to my site, and then telling my blog "I've got some products now" as I only made \$150 in the first month. You need to*

*do a proper launch that builds a buzz and excitement, follows a launch strategy, and maximizes sales and profits even when you DON'T yet have an email list or existing audience as this will help you build them.*

*(there's a 3 page checklist that tells you exactly what to do, all you have to do is check the items off and you'll launch a profitable product and make some easy money)*

*Those are the 5 most common mistakes and what NOT to do.*

*Now find out what you SHOULD be doing, so you can start launching stupidly simply yet amazingly profitable digital products just like the 5, 6 and 7 figure launch specialists do, on the link below...*

**>> [CONTINUE READING HERE.](#)**

*Enjoy your new digital product success.*

## STORY TELLING EMAIL

### Headline: My Creepy Obsession With A Crazy Welshman

*So I came to know [this crazy Welshman](#) last year...*

*It was "obsession at first sight". My obsession has since turned border line creepy...*

*He was a 7 figure info-product guru and me a blogger with a string of failed info-product launches under my belt.*

*He talks so fast and so excitedly that he comes across as being absolutely bonkers, you'll either love him or hate.*

*~~I crept into his bedroom~~ stumbled across him or more specifically one of his digital products by accident.*

*It came to me at the right time.*

*I'd recently launched some of my own digital info-products but they weren't selling all that well despite being good products (the few people who bought said they really liked them).*

*My products weren't even making \$150 a month despite the fact I had a relatively big, and engaged, blog audience.*

*This Crazy Welshman was making 6-7 figures a month from selling simple PDFs and had hundreds of student success stories, many making 5, 6, and even 7 figures themselves.*

*You'll recognize a few of these students names – Mark Millburn, Joey Xoto, Dean Holland, Amber Jalink, some of them are millionaires in their own right now through what they learned from the Crazy Welshman,*

*I bought his "Launch Bible" product (see purchase proof below)*

*A simple 3 page checklist on how to launch digital products and sell them in their bucketload so that your email inbox never stops getting notifications from Paypal about new sales.*

*I quickly implemented what he taught on my next product launch and in the first 4 days I made \$2,077.45 from 1 simple PDF that just contained a list of high paying affiliate programs (you can compile a list of resources, right?)*

*Instantly I was obsessed with this crazy Welsh guy. I was following him around the internet reading what he's posted on forums, spying on his FB posts, buying everything I could from him and singing his praises to anyone*

*who listened....like a creep!*

*He was responsible for a 1284.96% jump in income in 4 days for me, how could I not love this guy?*

*Now I'm 110% addicted to anything the crazy Welshman releases. I'll buy it without hesitation but I'm never disappointed as he over delivers with value and bonuses every time, so I don't mind.*

*Earlier this week he launched his latest product (it's a revamped and improved version of the very same product that took me from \$150 per month to over \$2K in 4 days)*

*It's available to download until tomorrow (as he takes his products offline after the launch to improve them and re-launch later)*

*So if you're either...*

*a) A struggling digital product creator who wants to take their digital business to the next level.*

*b) Someone who's new and not making any money online yet*

*c) You have bit of experience but not yet making enough money online*

*Then you HAVE to invest in this (it's less than the price of a starbucks coffee and one of those tasty blueberry muffins, neither of which will improve your life or finances when bought but might just make you overweight and diabetic)*

*It's one of the best quality products on the market that I ever bought and the stuff this Crazy Welsman teaches actually works, with more proven success stories than any other "guru".*

*So if you invest in this, put the work in, and follow the instructions there's no reason you won't start seeing the success you deserve – meaning no more money worries, no more debts and loans, and most importantly money left over to spend on yourself every month.*

*Remember I went from \$150 a month to \$2,077.45 in just 4 days with the exact blueprint and it's so easy (we're talking typing into a Word document easy, I'm sure you've done that before, right?) there's no reason you can't do the same.*

*The lesson to be learned here?*

*Copy what works and follow in the footsteps of those who have already achieved what you'd like to achieve and you will experience success*

too.

*And even though I'm hesitant to share my obsession with you for fear of you stealing him away from me it wouldn't be fair to keep him all for myself.*

*But if you become obsessed with him too don't blame me when you become addicted and start stalking him, OK?*

*(Actually I doubt you're as creepy as me so no problem)*

*You can find out all about the Crazy Welshman AND download his proven 3 page launch checklist responsible for 5-7 figure launches on the link below....*

**>> <http://nichehacks.com/crazy-welshman>**

*Remember this isn't available to download after tomorrow so you need to be a decisive action taker and pick it up now before it's too late.*

*Enjoy your Sunday,*

*Stuart 'Stalker' Walker*

## Why Am I Doing This?

I'm doing this because not only do I want to sell this product (The Launch Bible) and make some affiliate commission but **I genuinely believe in everything Alex Jeffrey puts out.**

He's made me (a lot of) money through following his advice (**\$2K in 4 days on my last launch**), he's turned hundreds of **marketers into 5 and 6 figure launch specialists**

Niche Hacks Tribe member **Ifran made over \$500 on his first ever product launch** in a weird niche even though he was a complete newbie.

And he has **more proven success stories than any other online marketer!**

know.

Names like Dean Holland, Marc Millburn, Amber Jalink, Joey Xoto, are among his former students.

Some of these guys are now multi-millionaires.

You just have to look at his Facebook Private Mastermind group and see all his happy students who are launching products across dozens of different niches and seeing huge success by following his system.

I have a copy of this product, I believe in the system he's teaching here, I know if YOU have some faith and put what he teaches into action you will see success too.

I believe in value for both of us.

Not only do I get a commission when you buy but you get a solid product I know can help you if you're willing to put it into action AND \$1,000 worth of bonus products my customers rant and rave about.

It's a win win situation for both of us I believe.

If you don't click the link below now you're missing out on a potentially life changing opportunity for less than a cup of coffee and a blueberry muffin from Starbucks....

## FINAL WARNING EMAIL 2:

**Note:** Out of all the “final warning” emails I've ever sent this headline consistently performs best

### Headline: This Is Going Offline Now [Final Warning]

Hey,

This is your final warning.

You've got just 3 hours (from when this email was sent less if you've opened it late) left to invest just \$9 in your future and pick up a copy of The Launch Bible before it goes offline at 12 midnight PST today.

It made me over \$2K in just 4 days selling a simple PDF that was nothing more than a copy and pasted list of affiliate programs.

It made Niche Hacks tribe member Irfan over \$500 on his first ever digital product launch in a weird niche despite the fact he was a newbie and had no prior connections, email list or audience.

I'm giving away over \$1,000 worth of exclusive bonuses for free when you invest in this product and your future because I want you to get as much value out of this as possible.

I recommend you check it out now as you might regret it later when you see NicheHacks tribe members posting about their success in the FB Private Mastermind group (again).

It's available only on the link below, but remember it's going offline at midnight tonight (PST time), so invest in your future and click it now or miss out forever...

## CONCLUSION

These give you an idea of the layout and format of the emails you should be using.

Don't copy these word for word (the content of these emails belongs to me) or try and pass them off for your own but instead take inspiration from them and craft your own emails using these outlines.

If you follow what I've taught in this guide and the blog post you'll see your email open and clicks rise and your affiliate commissions increase.

And before long I might be fighting you for 1<sup>st</sup> place on the product launch leader boards.
