How To Create Your Niche Master List.

This part is very easy but it will take you a little bit of time you can start with the most obvious one like:

BROAD NICHES

Jobs
Sport
Hobbies
College Teams
Animals
Vehicles

You will need something to make a list.

You can use a simple excel spreadsheet or you can also go with something like Xmind to expand everything.

Don't have office and don't want to pay for a license go here: <https://www.openoffice.org/> it's free!

Do you prefer Xmind? Free limited but functional version here: <http://www.xmind.net/download/win/>

Me, everything is in an excel spreadsheet.

My spread sheet looks like this

BROAD NICHE JOBS	SUB-NICHE	SUB-SUB-NICHE	
This Is What You Want To Target First - Stay In The Sub Niches	Engineer	Software engineer chemical engineer project engineer design engineer	
	Nurse	registered nurse military nurse veterinary nurse licensed practical nurse neonatal nurse	
	Mechanics	auto mechanic diesel mechanic heavy duty mechanic	
	Welders	Tig Mig Arc High pressure underwater	
	Truck Drivers		

So now that you're all set and ready to build your list you will go to google and type "job list"

Let's have a look at the results:

The screenshot shows a Google search interface with the search term "job list" entered in the search bar. Below the search bar, there are navigation tabs for "Web", "Images", "News", "Maps", "Videos", "More", and "Search tools". The search results are displayed below, showing approximately 1,390,000,000 results in 0.32 seconds. The first result is titled "The 100 Best Jobs | Best Jobs | US News Careers - Money" with a URL of "money.usnews.com/careers/best-jobs/rankings/the-100-best-jobs". The second result is titled "List of over 12,000 Careers - Career Planner" with a URL of "www.careerplanner.com/ListOfCareers.cfm". The third result is titled "Job List" with a URL of "www.albertacarpenters.com/job-list".

See you got 2 great sources right there.

Just for the example I will click the first one "The 100 best Jobs"

#3

Dentist

★★★★★ (8.2 out of 10)

As Dr. Seuss once wrote, "Teeth are always in style." Dentists surely think so. They make their living diagnosing and treating our teeth and gums, and counseling us on how to maintain good oral health. This profession is expected to add 23,300 new jobs up to the year 2022.

#4

Nurse Practitioner

★★★★★ (8.1 out of 10)

It's a nurse practitioner's array of capabilities, coupled with the fact they can work independently of physicians when treating patients, that makes our No. 2 Health Care Job an attractive career choice. The BLS predicts 37,100 new positions for these professionals between 2012 and 2022.

#5

Pharmacist

★★★★★ (8.1 out of 10)

Pharmacists mix technical, organizational and people skills in a customer service environment. Each day, more than 271,560 pharmacists dispense medicine and advice to patients at hospitals and retail chains. The profession is expected to grow 14.5 percent by 2022.

#6

Registered Nurse

★★★★★ (8.0 out of 10)

Nursing is an indispensable profession in health care; one where workers are almost always needed. This year is no different, as the BLS anticipates 19.4 percent employment growth in this field between 2012 and 2022.

Sub
Sub
Niches

You got dentist, pharmacist and 2 nursing job now those 2 are sub-sub niches of the nurse niche.

You can put Nurse in the sub niche and add Nurse practitioner and registered nurse in the sub-sub niche category.

Feel free to look around on other websites as well if you want to find more obscure jobs but you don't really need to go deep like I said stay broad and stick with what's working.

You will do this for all the broad niches I listed above and you can go really crazy and find even broader niche to get into.

The idea here is to have a general view of where you're going and who you will advertise too.

You will need to be super organized if you're not already.

Ok now work your master list until it's done.

What? Why I don't provide my own list to you?

Good question.

You have to master every part of the system, you have to know it, and you have to master your "shit" like no one else because later on, you might want to outsource everything.

And if you don't know shit about what you do, well your ship is going to sink.

Also, you won't be able to know the story the numbers are telling you and the most important thing, you won't know what to say to your VA (Virtual Assistant) on how to fix it.

Master the system.

Yes it's a little bit more work, yes it will take more of your time.

But in the end you will be able to spot a problem before it occurs, contact the person responsible, crack the whip and make them fix what's wrong.

Usually, when I talk to people who want to outsource everything without knowing their subject, I see people who want to wave their responsibilities and let the others work for them and only reap the rewards.

Those are the people who are looking to get rich quick.

If you can recognize yourself here, it's Ok.

See, getting rich quick is not a "bad thing" you have big hope and expectation that's all.

With this system, there's no limit on the money you can make if you take the time to follow the system.

If I could win a gold medal at the Olympics without working hard for it, I would have a few of them on my wall already...

It just doesn't work that way unfortunately.

So yes I will let you do the work 😊

The good thing is once you have your list done, you will never have to worry about making it again.

You will use the same list over and over again.

Take your time and go build that list now!

Ok see you in the next module.
