

# HOW TO GET 20 to 30 ORDERS DAILY

**Hello,** Nice to meet you again. I am the same Evans Okyere Nyarko, a 19 year-old blogger, entrepreneur, freelancer, affiliate marketer and a Business Administration student from the University of Ghana.

In this eBook, I am going to show you how to get 20 to 30 orders daily by doing 10 minutes of simple tasks. I am going to show you 3 methods I use to get numerous orders all day even on weekends.

**1. BUYER REQUESTS.** Most Fiverr sellers don't know the use of Buyer requests. There are many sellers on Fiverr but most of them hardly send buyer requests because they feel they won't be chosen even when they apply to buyer requests. I am going to show you the **strategy I use to get 4 to 7 people order my gigs** out of the **10 daily buyer requests** every Fiverr Seller is allowed to send out.

	hello guys i hope everyone fine :) today i need a facebook account with 5000 friends	2	24 hours	\$5
	Hello I would like to put 40 customized comments and like for your facebook post. Besides, I also put 40 comments, play, repost, and likes f... See more	2	3 days	\$5

Now, let me show you how I get 4 to 7 orders out of 10 daily buyer requests that I send out.

- Go to your buyer request page,
- Look for a gig related to your services
- Send request but **do not enter price higher than 5\$.**

Let me explain to you why.

This is because most buyers prefer to buy cheap gigs over high priced gigs. So applying to buyer requests, you should always use **\$5** even if the price of the service shouldn't be that. Add the following message in the description part. For example, article writers applying to buyers who require articles;

**I am a professional article writer with over 7 year experience in writing unique and quality contents. I can help you write any type of article you want. Contact me for more details.**

**Choose delivery days as 1 day and Price like I said 5\$.**

The screenshot shows the Fiverr interface for creating an offer. On the left is a sidebar with the Fiverr logo and navigation links like 'Dashboard' and 'Selling'. The main area is titled 'Describe Your Offer'. It contains a text box with the pre-written message: 'I am a professional article writer with over 7 year experience in writing unique and quality contents. I can help you write any type of article you want. Contact me for more details.' Below the text box is a character count '182 / 800 CHARS MAX'. Underneath is a section 'Define Additional Details' with three rows: 'Number of revisions (optional)' with a 'Select' dropdown, 'Delivery Time' with a '1 day' dropdown, and 'Total offer amount' with a '\$5' input field. At the bottom right of the form are two buttons: 'Back' and 'Submit Offer'.

Note: Even if the amount the buyer is willing to pay is over 5\$, Still send the offer with the price as **\$5**. They will contact you.

**2. BLOG COMMENTING:** This is one of the best ways one can use to drive orders to their gig and make 20 to 30 orders daily. The importance of this blog commenting is that your comment will remain there forever and these websites receive thousands, tens of thousands and even hundreds of thousands of traffic daily so there is maximum exposure to your gigs. Now let me show you how to do the blog commenting excellently.

Here, we are going to do the blog commenting as if we are customers that purchased the product and giving testimonials on the forums or articles with our gig's link embedded into our comments. For example, if I am offering traffic services on Fiverr, then I have to comment on posts or forums related to articles. Now let's start.

Go to google.com,

Search for anything you would search relating to the services you offer. Example, I am offering traffic so I will search for **"get website traffic"** on google.

Now look at the results that came, most of these results are giving ways or tips on how people can get traffic to their website so if we comment on these articles in testimonial form, the readers will click our embedded link which leads to our gigs on Fiverr and there we can make a sale.

### **How do I make my comment catchy and not to look like a spam?**

I write my comment in 3 to 5 sentences in the form of testimonials directing people to my gigs. Look at this one here.

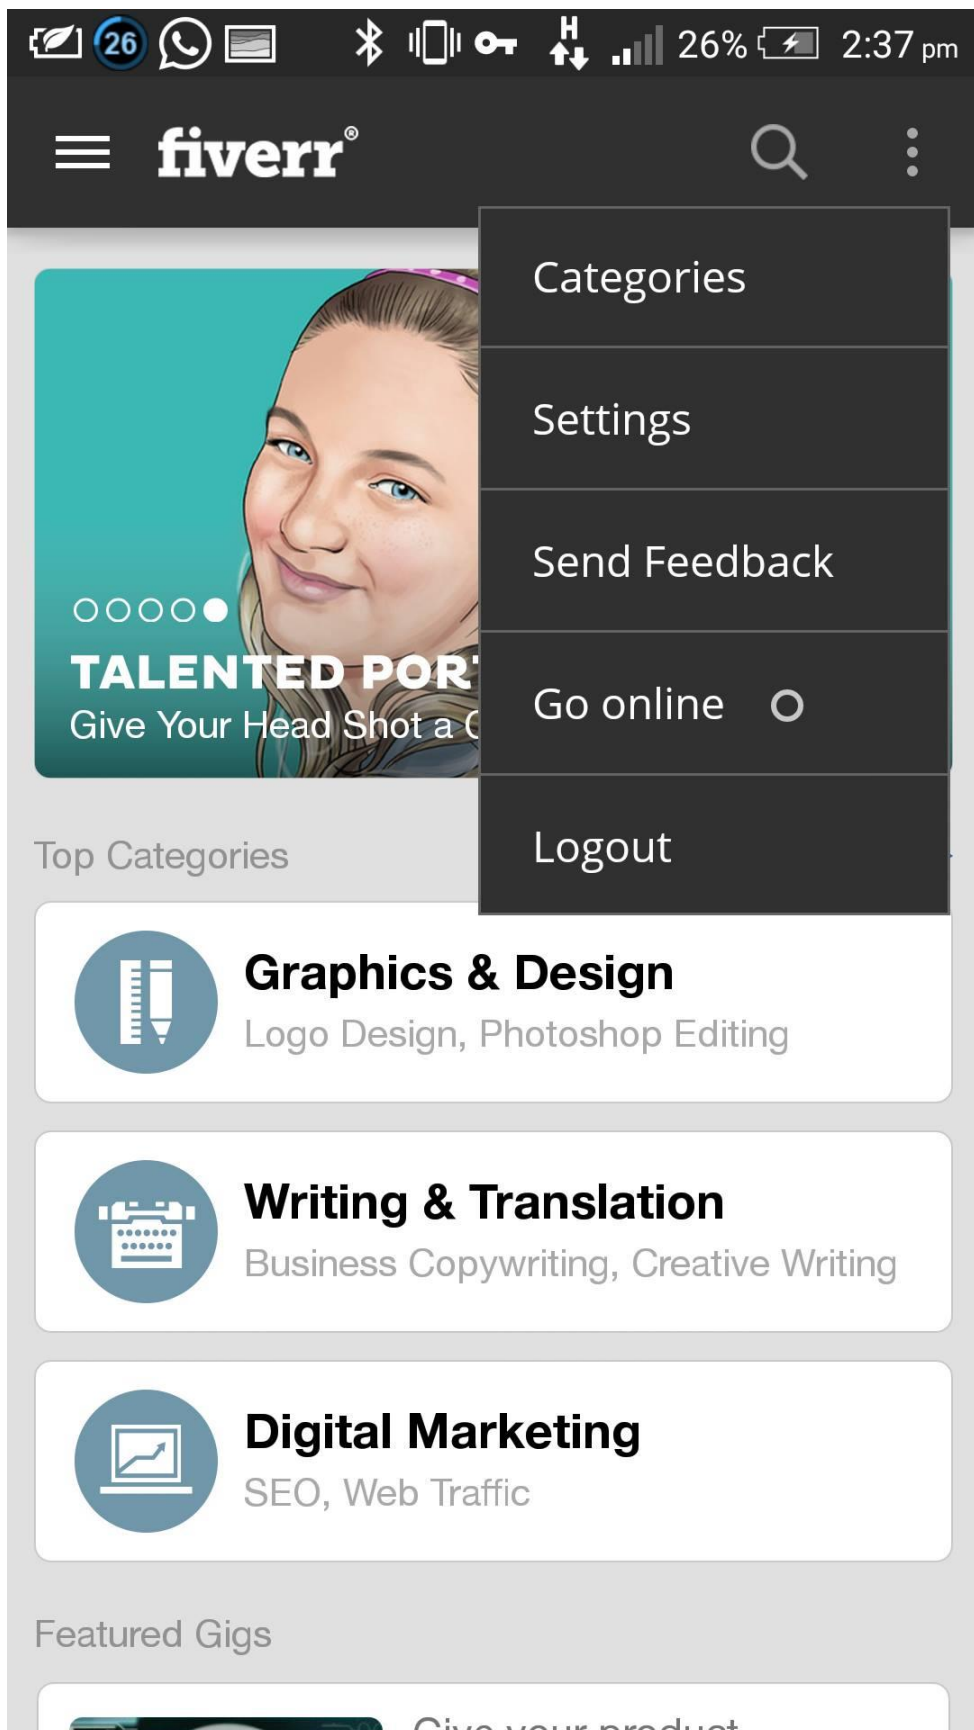

**Traffic is an essential need for every website. I was really upset and discouraged when I was getting good content for my website but lack of readers. I found an agent <https://goo.gl/XXXXX> who provides me with real breathing targeted human traffic for my website <https://goo.gl/XXXX>. Now I write with passion and joy because I know I have audience who will be reading. I have been using his traffic services for sometimes now and he is the best so far.**

That's all. Just do this on the first 10 to 20 results on google whenever you search a keyword related to the services you offer on Fiverr.

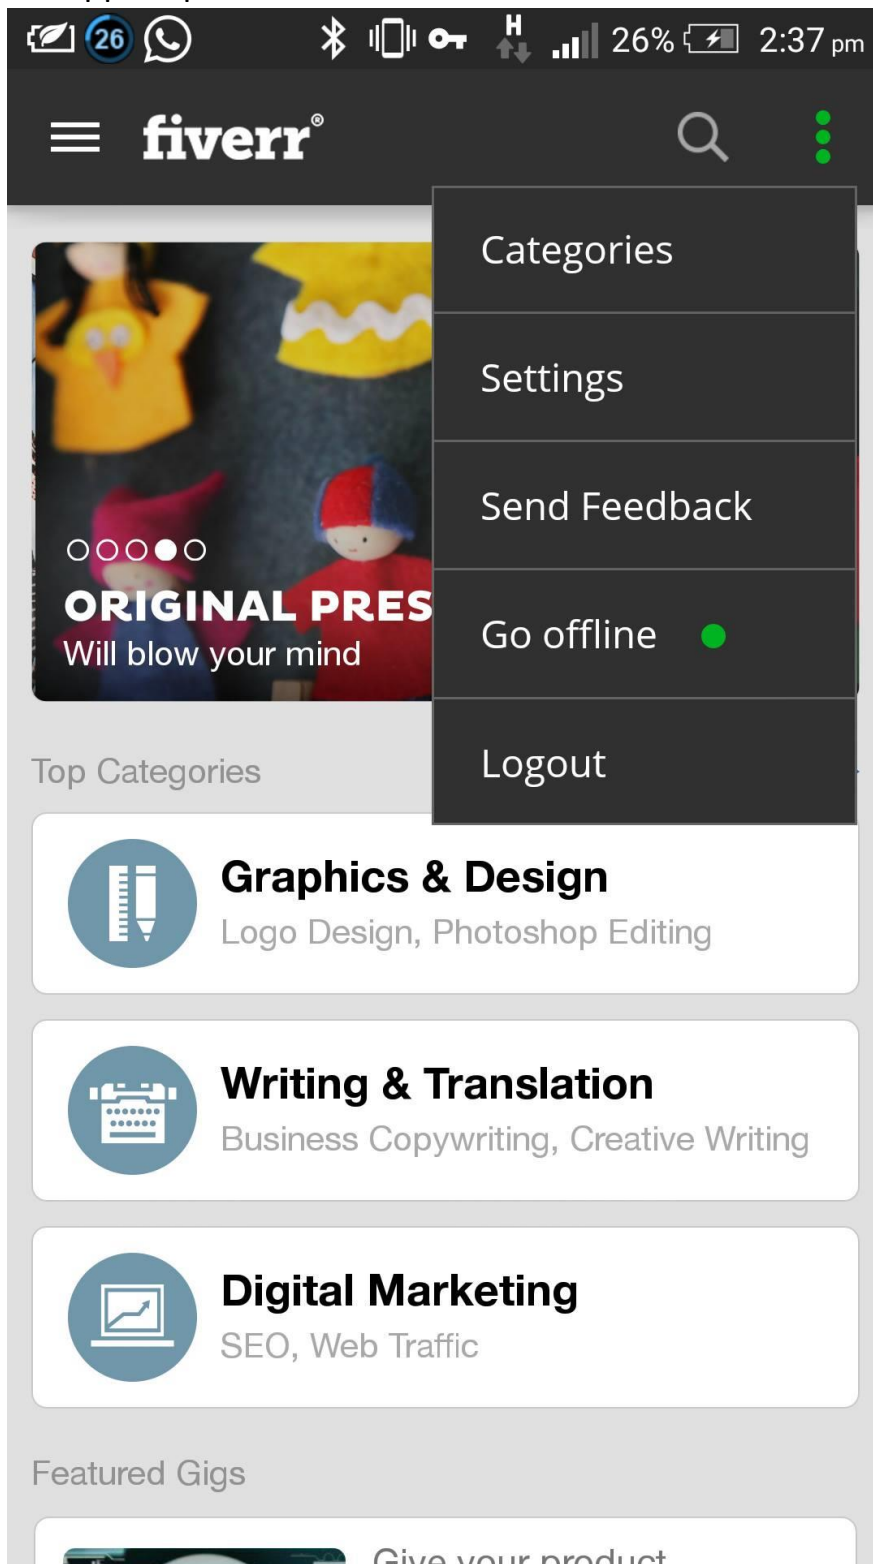

**3. 24/7 ONLINE TRICK:** This is the final strategy to get 20 to 30 orders daily. Most buyers are willing to buy from sellers who are online. So then, how do you stay online 24/7 even if you are away, not online or asleep? It's a simple strategy.

Most of us use android and IOS phones. Just go to AppStore or PlayStore and download the Fiverr app. Login into your account

- Click on the three vertical dots in the top right corner of the app for a menu like this to appear

- Select Go online and leave the app open. You will remain online as long as the app is opened.

When you are online, Buyers would like to buy from you. Make sure to reply them immediately you get a message from them. Be nice and kind to them. Welcome them and thank them for their interests in your services. Give them the right services and they will always come back for more.
