INTRODUCTION

A bit of introduction to what you're about to learn in this ebook is basically "how to rank your Fiverr gig on 1st Page in just 3 Steps under 5 minutes" and make some cool cash daily.

My name is Evans Okyere Nyarko. I am popularly known as Evans Nino Brown, a 19 year old Ghanaian Entrepreneur, blogger, freelancer, affiliate marketer and also studying Business Administration in the University of Ghana in my first level.

First of all, I would like to thank My God, Jehovah Elohikah, El Shadai, Everlasting, Kind and caring God for how far he has brought me. The journey hasn't been easy. A lot of ups and downs but he has always been grateful and caring to me. Encouraging and directing me in all my path, making me stronger after all the discouragements I have been through from enemies and even friends. I also thank you for having the courage and trust in my works for getting this course, I pray you will find success with this book and also make it in life.

I don't want to make this eBook long or lengthy to make it boring so I will just go straight to the point and let you know everything right away in 3 easy steps which even a newbie should be able to do it. Just follow these steps and you will find success with it. It can be done in 3 minutes but results doesn't show right away. It

should take 24 hours to some days to start seeing results. Mine started right under 3 hours, I hope same happens to you.

Don't get this eBook and just read without taking ACTION, or else you have wasted your money.

Now, let's get started:

1 Go to Fiverr, Log into your account or sign up if you are new to Fiverr and create your gigs.

Enter in the Fiverr search bar a tag keyword related to the services you are offering on Fiverr. For example if I offer article writing, then the possible tag keyword searches that will get me sales are article, article writing, content writing, unique content and so on.

In this eBook, let me use the keyword tag "article" as example. So, I will search for article in the Fiverr search bar and here are results for the tag keyword article.

2 You can now see the results of the gigs that showed when I searched for the tag keyword “article”. Now take a good look at the picture and tell me the gigs you see appearing first? And what is written on it? You can see the first 3 to 6 gigs or some gigs in the first 10 results has something like popular search results. Click on any of the gig which has the word popular search result.

Now take a look at the number of orders in queue

Okay, good? Isn't it? Now let's see the gigs **WITHOUT** the keywords **popular search results** on them. You should check the first image and compare to this, you will know it's the same picture. Now click on those without **popular search results** on them. We have two gigs showing in this picture.

NOW THE QUESTION IS: Why is it that all these appeared first on the search page but the ones with **popular search results** have all the orders than the ones without **popular search results**?

This is what I am going to tell you and teach you to make more orders or sales on Fiverr.

The answer is just simple. The tags and the titles of those with **popular search results** on them are mostly searched!! Making their gigs appear most of the time so more popularity, more sales. So now how do we make our gig **popular too** and make as much sales as they are making?

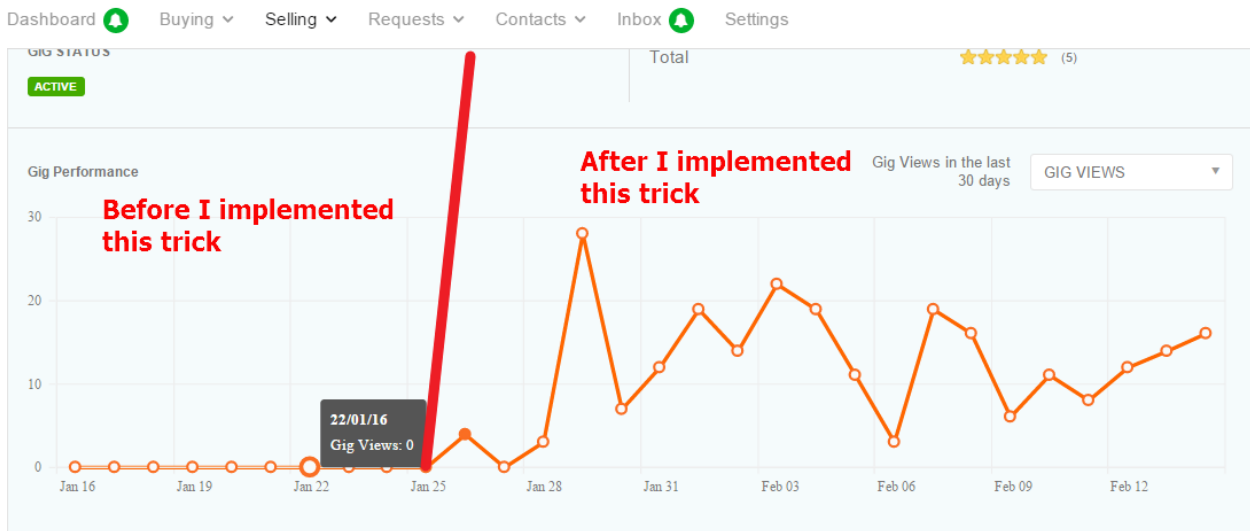

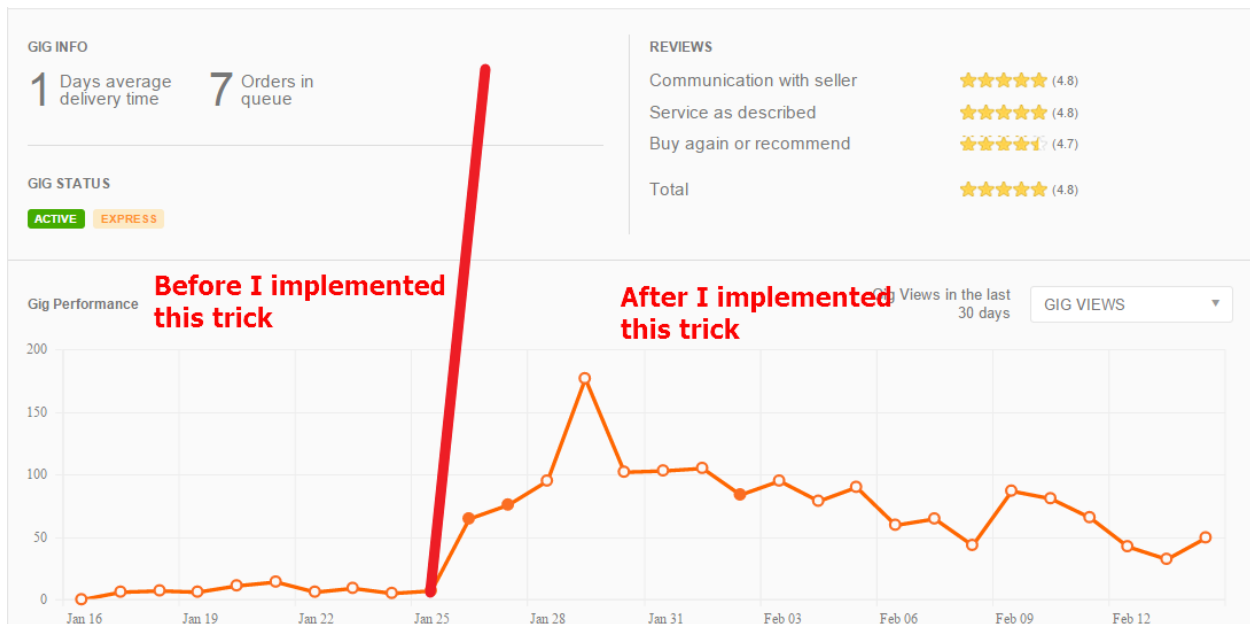

This is what I have explained in this eBook in just three steps. So now the final step.

3. Click on any of the gigs with the word or phrase **"Popular search results"** on them. See image below and you will see the gigs that have **popular search results** on them to know what I am talking about.

Now, edit your gig, use **THE SAME TITLE** and **TAGS** of any of the gigs with **popular search results** on them, and save your gig. That's all. Wait for up to 3 days. Mostly, it takes 24 hours to see results. Your gig will rank on first page of Fiverr and you will start getting the orders coming in their numbers. Mine took only 3 hours to see results and since that day, I have made a lot of sales, 20 to 30 daily.

You can see in the image analytics of my gigs over the past few days I implemented this trick.

It works for all Niches or Gigs!!! Just take the action now!!!

Don't hesitate to contact me should you need some help.

Thanks,

Evans
